Introduction

American Family and Friends 2nd Edition is a complete six-level course of English for students in primary schools. It uses a clear grammar-based curriculum alongside parallel syllabi in skills and phonics. In this way, students develop the confidence and competence to communicate effectively in English, as well as understanding and processing information from a wide range of sources. The course combines the most effective literacy techniques used with native English speakers with proven techniques for teaching English as a foreign language to students.

Students have different learning styles. Some learn better by seeing (visual learners), some by listening (auditory learners), some by reading and writing, and some with movement (kinesthetic learners). *American Family and Friends 2nd Edition* uses all of these approaches to help every student realize his or her potential.

It also looks beyond the classroom and promotes the values of family and friendship: co-operation, sharing, helping, and appreciating those who help us.

This level of *American Family and Friends 2nd Edition* includes the following:

- Student Book
- Workbook with Online Practice
- Student website with Online Play
- Teacher's Book Plus containing:
 - Teacher's Resource Center
 - Fluency DVD
 - Online Practice
- Classroom Presentation Tool
- Class Audio CDs
- Alphabet Book
- Writing posters
- Readers

Also available as supplementary material, *Grammar Friends* is a six-level grammar reference and practice series that matches the syllabus of *American Family and Friends 2nd Edition*. The grammar is presented within everyday contexts familiar to pupils from the other materials they use in class. The course can be used as supplementary support and resource material providing practice and reinforcement in class or at home.

Methodology

Words and grammar

New words are introduced in relation to each unit's topic or theme. Students meet the first group of words passively in the story in Lesson 1. The words are presented formally in Lesson 2 through illustrations and recordings. The students can check meaning and develop their dictionary skills in the Dictionary pages.

A second group of words is presented in the *Working with words* section in lesson 2, giving further scope for practicing dictionary skills. The accompanying Workbook pages provide practice of building new words following the patterns in the *Working with words* section.

The third group of words is presented in Lesson 6. Students are encouraged to work out the meaning of these words from the text in Lesson 5, where they first appear. They then check the meaning of the words in the Dictionary pages. The Workbook provides further practice of determining meaning from context.

Skills

Each unit of *American Family and Friends 2nd Edition* contains three pages dedicated to the development of reading, listening, speaking, and writing skills. The four skills are all integrated.

The reading texts in this section expose students to a balance of both familiar and new language. With a range of different text types of increasing complexity, students develop the confidence to recognize and use the language they know in a wide range of situations. They develop the skills of reading for gist and detail, both of which are essential for complete communicative competence.

After every three units there are two pages of extra reading material in the form of non-fiction and fiction texts. These longer texts are to be used for extensive reading so students do not have to understand every word. These texts are optional activities to be done at the discretion of the teacher.

The listening tasks, which are linked to the core reading text in each unit, help students to practice listening for specific information and detail, as well as gist.

Speaking practice tasks are also integrated, so students will already have been exposed to key words to be used, which will give them the confidence when carrying out the task.

The writing skills section prepares students to write a certain type of text, e.g. a story, a poem, or a personal account. Before students begin the exercise in their Student Books, they look at a poster of the appropriate text type with their teacher. This helps them to visualize layout and draws their attention to key literacy points. Students then look at an annotated text in their Student Books. The annotations draw attention to conventions and techniques of structure and style that students should use in their own writing.

After students have answered the questions in their Student Books, they are ready to complete the writing tasks in their Workbooks.

Writing posters

There is a poster for each of the writing lessons. These should be used by the teacher as a visual aid when discussing how particular types of text should be laid out and what should be included in them. Full notes are given on how to use the posters at the start of Lesson 7.

The poster worksheets in the Teacher's Resource Center contain the text for each of the Writing posters. These should be photocopied for each student so they can follow the text as the teacher reads. Students should be asked to keep their poster text safe in their files as they will need it again for the Teacher's Resource Center Writing skills task.

Stories

Every unit contains a story which provides a fun and motivating context in which the new language appears. In Level 5, we meet a happy extended family (Fin, Libby, Kate, and Ed) and read about adventures they have with their youth group, the *Do Something Different Club*.

Songs

Every unit in *American Family and Friends 2nd Edition* contains a song for students to practice the new target grammar structure.

Melody and rhythm are an essential aid to memory. By singing students are able to address fears and shyness, and practice the language in a joyful way together. Songs are also fun and motivating activities and are a good opportunity to add movement to the lessons.

Drama and Total Physical Response (TPR)

Students of any age, especially kinesthetic learners, benefit from associating language with movement and actions. In *American Family and Friends 2nd Edition* students are given the opportunity to act out the stories with simple drama activities. One of the main obstacles to language learning at any age is self-consciousness. Drama, by appealing to the imagination, is an excellent way for students to 'lose themselves' in the story, thereby increasing their communicative ability. Like other skills work, drama helps students to communicate and be understood. By developing performance skills, they practice and become fluent in expressing real-life situations, starting with the story in the classroom and then moving on to real-world contexts.

Classroom management

Students learn best when the atmosphere in the classroom is relaxed, happy, and well-ordered.

Success is a great motivator. Try to make every student feel successful and praise their attempts enthusiastically. Students should all be familiar with expressions such as, *Good work! Good job! Excellent try! You did that very well.*

Errors need to be corrected, but use positive and tactful feedback so that students are not afraid of making mistakes. If a student makes a mistake, say *Good try. Try again*, then model the correct answer for the student to repeat. Avoid using words such as *No* or *That's wrong*, as these can create negative associations to learning.

Establish a clear and consistent set of classroom rules and ensure that all the students know what to expect. Always praise good behavior so that bad behavior does not become a means of gaining attention.

Games

Games provide a natural context for language practice and are very popular with students. They promote the development of wider cognitive skills such as memory sequencing, motor skills, and deductive skills. If required, all the games in *American Family and Friends 2nd Edition* can take place at the students's desks with a minimum of classroom disruption.

Involving parents

Learning involves a co-operative relationship between home and school, and it is important to establish clear communication with parents to encourage home support. The following are suggestions about possible ways of doing this:

- Keep parents informed about what their students are learning and their progress. Parents might benefit from receiving newsletters listing what students are now able to do, and what words and phrases they are studying.
- Show parents the completed Values worksheets from the Teacher's Resource Center.
- Organize a concert or parents' afternoon where the students can perform the unit stories, plays and the songs they have learnt, along with their actions.

Oxford Parents is a website where your students' parents can find out how they can help their student with English. They can find lots of activities to do in the home or in everyday life. Even if the parent has little or no English, they can still find ways to help. We have lots of activities and videos to show parents how to do this.

Studies have shown that practicing English outside the classroom can help students become more confident using the language. If they speak English with their parents, they will see how English can be used in real-life situations and this can increase the students' motivation.

Parents can help by practicing stories, songs, and vocabulary that the students have already learned in the classroom. Tell your students' parents to visit www.oup.com/elt/oxfordparents and have fun helping their students with English!

Games

Lip reading

- Say the target word silently to the students, exaggerating the movements of your mouth. You may also like to give small miming or gestural clues.
- Ask students to guess the word.

Guess the word

- Write words from a vocabulary set students have just studied on the board, showing only the first two letters and the number of missing letters, e.g. *fr _ _* (*frog*).
- Divide the class into two teams. A student from Team A tries to guess the correct answer. If s/he gets the correct answer, complete the word on the board and give the team a point. If the student guesses incorrectly, give the point to Team B.
- The winner of the game is the team with the most points.

Miming snap

- Choose a word from the vocabulary set that students are learning, or any other word that students know and you want to focus on. All the words must be things that can be clearly mimed.
- Say a word and mime the action. If the word matches the mime, students should *Snap!* If the word doesn't match the mime, students can be silent, or do an agreed action.
- Choose a student to mime another action. The student says a correct or incorrect word while s/he mimes the action.

Book race

- Use this activity in the last lesson of the unit to review the language in the unit.
- Tell students that they are going to do a book race. When you say words or phrases, the students have to find and point to a picture of that word or phrase in the unit, but they have to be fast!
- Call out a word or phrase students have just learned, e.g. food words or rules with *you must* and *you mustn't*.
- Students look quickly through the unit and find the pictures.
- Do an example with students, allowing them plenty of time to find the correct picture.
- Call out the first words or phrases slowly and gradually reduce the interval until it is a race to keep up.

Target words TPR

- This activity is particularly good with writing activities that focus on words like connectors and sequencers.
- Assign target words, e.g. *and* and *but* to students in the class by counting along the rows of students.
- Read out sentences containing the target words. Students must stand up or do another agreed action when they hear their word.
- Read out the sentences again, this time leaving a blank for the target word. Students who have been assigned that word stand up and say it.

Smiley face

- This game can be played as a whole-class activity or in teams and pairs.
- Think of a word and draw a short line for each letter on the board, one next to the other.
- Ask students to guess the letters that are in the secret word, one by one. If a student guesses a letter which is in the secret word, write the letter in the correct position.
- If a student guesses a letter which isn't in the word, write the letter on the board with a cross through it, and draw a large circle to represent a face. With each letter that is incorrect, add another feature to the face (two eyes, a nose, a smile, two ears, a neck, and hair).
- The game continues until either the word or the face is complete. If the word is completed, the class has won; if the face is completed, the teacher has won.
- The game can also be played with phrases and short sentences.

What's the picture?

- Invite a student to come to the front of the class. Whisper the name of an object s/he has to draw.
- The student draws the picture on the board for the rest of the class to guess.
- The first student who guesses correctly comes to the front of the class to draw the next picture. Repeat until all of the target vocabulary has been used.

A long sentence

- Say a sentence that ends with a word or phrase from the vocabulary set that you want to practice, e.g. *I'm going to the sports center.*
- Choose a student to continue the sentence, adding a new word to the end, e.g. *I'm going to the sports center and the movie theater.* This student then chooses another student, who says the sentence, adding another word to the end of it.

Bingo

- Ask students to draw a grid, three by three (or three by two) squares. In each of the squares they write a different word from the vocabulary set they are studying.
- Call out words from the vocabulary set in any order. Keep a record of the words as you say them so that you don't say the same word twice. Students cross off the words in their grids as they hear them. The first student to complete a line of three shouts *Bingo!* and is the winner.

Wrong word

- Write six to eight sentences on the board about a story, poem or factual text that students have recently read. One word in each sentence must be incorrect.
- Ask students to find the incorrect word in each sentence and then rewrite the sentences so they are correct.

True or false?

- Say a true or false statement about a topic or using a grammar point you want to practice, e.g. *I have two sisters.*
- If students think you are telling the truth, they call out *True!* If they don't, they call out *False!* Alternatively, students can do one or two agreed actions.
- Choose a student and then tell him or her if his/her answer is correct. Ask that student to say a true or false sentence for the class. Continue in this way around the class.

Whispers

- Organize students in groups of at least six. Show a flashcard to the first student in each group. This student whispers the word to the student next to him/her.
- Students continue whispering the word to the student next to them until the word reaches the final student.
- The final student says the word aloud, and the first student holds up the flashcard to see whether the word and the flashcard are the same.

Order the letters

- Choose a word. Write the jumbled-up letters of that word on the board, followed by the correct number of lines for the number of letters.
- Call students to come to the board to write one letter at a time to complete the word.

Time's up!

- Divide the class into two teams. Write the jumbled letters for a word from a vocabulary set on the board.
- Give students from the first team ten seconds to solve the anagram and say the word. If they don't guess the word correctly, call *Time's up!* And reveal the answer.
- Repeat the activity with a different word for the other team.
- Teams score one point for each word they guess correctly.

Definitions

- Describe a word from a vocabulary set that students have recently learned for the class to guess, e.g. *You can fly in it, but it isn't a plane. (Hot-air balloon).*
- Ask a student to stand up and describe another word from the vocabulary set.
- Continue with other words and different students.

Option: To make the game more challenging, give students slips of paper with words they are banned from saying written on them, e.g. for *hot-air balloon*: *balloon, air sky.*

Write one thing

- Write several themes relating to a reading or listening text that students have just covered on the board, e.g. *space, computers, extreme sports.*
- Ask students to write down one word for each category.
- Give each student a point if no other student in the class has the same word.

Talk!

- Ask a student to stand up. Choose a topic from the unit and write it on the board. Tell the student that s/he must talk about the topic for thirty seconds without pausing.
- If s/he fails, choose another student to talk on the same topic. If s/he succeeds, choose a different student and a different topic.

Twenty, twenty

- Choose a word from the vocabulary set or any other word that students know that you want to elicit or revise.
- Before playing the game, tell students the lexical group of the word they have to guess, e.g. *it's a job, it's a place.*
- Students take it in turns to ask yes/no questions. If they haven't been able to guess the word, give them clues until they guess it correctly.

Disappearing dialogue

- Choose one frame of the story dialogue and write it on the board. Read it with students, and then erase four words. The first words you erase should be words you particularly want students to remember.
- Ask students to read it again, saying the missing words.
- Erase four more words and repeat.
- Keep erasing the words until students are saying the text from memory. Leave only the character's names at the start of each line to help them.

Vanishing verse

- Play this game in the same way as Disappearing dialogue, but use a verse from a poem or song.
- Erase words until only the first word of each line remains.

Questions for answers

- Play this to check for comprehension of a text, or to practice grammar. Write a list of answers on the board, e.g.
It sank when it hit an iceberg.
It was sailing to New York.
Over a thousand people drowned.
I went to the festival yesterday.
Yes, I have eaten Chinese food.
- Students must guess the question that fits each answer.

Fluency development

A sense of achievement and a sense of autonomy are essential ingredients in promoting fluency. The Fluency Time! lessons in *American Family and Friends 2nd Edition* give students the opportunity to personalise the language they learn and to practise speaking together in pairs and groups, to play games using the new language and to create their own dialogues, and to help boost their confidence and motivate them in the classroom.

It is important for language in the classroom to be meaningful and functional, so that learners can see how the language they are learning can be applied to everyday life. When learners are able to use the language they learn to communicate in a realistic situation, or to interact socially with others, they feel a sense of purpose in their learning.

Syllabus

The syllabus for the Everyday English phrases is based, in part, on the Cambridge English: Movers syllabus. Other useful phrases, which reflect daily life, have also been included. For learners who are preparing for the Cambridge exams, this will provide additional preparation and practice for the speaking parts of the exam, but for those not taking the exams, the Everyday English phrases will be equally useful and applicable to the situations they may face in the future.

In the Student Book and Workbook

The Fluency Time! lessons in *American Family and Friends 2nd Edition* provide learners with useful language for a variety of everyday situations.

Each of the four Fluency Time! lessons in *American Family and Friends 2nd Edition* consist of an Everyday English page followed by a craft page. The Everyday English pages teach phrases through mini stories in a meaningful context, and provide practice of the new language through a listening activity and a speaking activity, providing a gradual transition from receptive to productive skills. The craft pages give instructions for a craft project related to the context, and provide further, freer practice of the Everyday English phrases through a communicative game or speaking task, which involves acting out dialogues and using the craft object. In this way, learners can personalize and build on the key phrases, extending the language to incorporate recycled vocabulary and structures from the units they have covered so far.

The Workbook provides further written practice of the Everyday English language, including activities based on the Fluency Time! DVD.

In the Fluency DVD

The Everyday English dialogues are also presented in the new Fluency Time! DVD. The key Everyday English language is acted out by native speakers in various real-life locations. You can find suggestions on when to use the DVD in the Everyday English teaching notes.

21st Century Learning

The Four Cs

As our world becomes increasingly interconnected, today's young students must develop strong skills in creativity, collaboration, communication, and critical thinking.

Creativity

Creativity is an essential 21st Century Skill. Students who exercise and demonstrate creativity are better prepared to solve problems, make changes and express themselves clearly. Creativity can be fostered through project work and other arts-based hands-on experiences. However, creativity is also about thinking processes. Creative thinking can be encouraged through asking students interesting questions and having them ask their own questions. Using different techniques to approach problem solving also helps students to internalise meaning in a personal way. *American Family and Friends 2nd Edition* encourages creativity through the use of interesting texts which stimulate personal responses, craft activities which help students to understand the world around them and projects which require them to problem solve and express themselves.

Collaboration

Collaboration requires direct communication between students, which strengthens the skills of listening and speaking and the associated skills of turn-taking, clarifying, explaining and discussing. Students who work together often achieve better results, as they benefit from each other's strengths. But they also develop a sense of team spirit and pride throughout the process. *American Family and Friends 2nd Edition* offers opportunities for collaboration in every unit. Whether it is through project work, group games, or team discussions, students are sharing ideas, expressing personal opinions and developing important social skills.

Communication

Communication forms an important part of collaboration. Students need to learn the skills of listening, speaking, reading, and writing to effectively take part in an age of rapid change. As our world becomes increasingly interconnected, today's young students must develop skills that allow them to communicate in a variety of ways, including oral and written skills but also digital communication skills.

Critical Thinking

Students in the 21st century need to do more than acquire information. They need to be able to analyse the information by making sense of it critically. Critical thinking skills help students to determine facts, prioritize information, understand relationships, solve problems and deal with an ever changing world. *American Family and Friends 2nd Edition* encourages students to think about language, to focus on meaning and to react to the world of English in a personal way. Subject areas are introduced so that students can make connections between content and language, interesting facts are presented and students are invited to be curious and questioning.

Values

Values, which can also be called civic education, are a key strand in *American Family and Friends 2nd Edition*. Teaching values is important as it focuses on the whole student, not just language skills. It improves students's awareness of good behavior, and how their behavior and attitudes can impact on the people around them and their environment.

Areas for values teaching include helping students to understand about:

- Community, e.g. agreeing and following school rules, understanding the needs of people and other living things, understanding what improves and harms their environment, contributing to the life of the class and school.
- Health and hygiene, e.g. understanding the basics of healthy eating, maintaining personal hygiene, rules for keeping safe around the house and on the road.
- Interacting with others, e.g. listening to other people, playing and working co-operatively, sharing, identifying and respecting the differences and similarities between people, helping others in need.

Values are highlighted throughout the course in various places:

- In the four Values worksheets in the Teacher's Resource Center.
- In the exemplification of good behavior throughout the course, in particular in the two class plays in the Teacher's Resource Center, in the Student Book stories and their characters.
- In the co-operative learning activities throughout the course, which encourage students to work together and co-operate in order to complete activities.

CLIL

CLIL (Content and Language Integrated Learning) refers to teaching subjects (such as science, math, art, geography) through a foreign language. CLIL increases motivation by presenting language in natural, real-life contexts, which interests students and encourages them to communicate. *American Family and Friends 2nd Edition* provides four CLIL spreads to enable students to learn cross-curricular content and English simultaneously.

In the Student Book and Workbook

All of the CLIL lessons in *American Family and Friends 2nd Edition* focus on a school subject. The content areas are carefully chosen to be interesting to students, while at the same time not overwhelming them with too much new information.

The CLIL pages in the Workbook provide further practice of the new language through reading, writing, listening, and speaking activities, ensuring that the students have plenty of practice of the new language and content in all four skills.

CLIL topic

Students are introduced to the subject topic and new vocabulary is pre-taught through a vocabulary presentation activity. The students read a text based on the lesson topic

and complete a comprehension activity. A critical thinking activity is always included so that students can personalize the topic and the new language.

CLIL project

The vocabulary and skills focus is followed by a project related to the topic. This allows students to create something which demonstrates their understanding of the concepts and language from the subject lesson. It is followed by a stage where students present their projects to the class, increasing spoken confidence and general presentation skills.

Differentiation

Most classes contain students with mixed abilities. *American Family and Friends 2nd Edition* provides support for students who may be above or below the average level of the class. The Teacher's Book contains suggestions on how to make activities easier for students who require more support, or more challenging for students who need more independence. This ensures that all students remain confident and motivated throughout your lessons.

Classroom tips for mixed ability classes

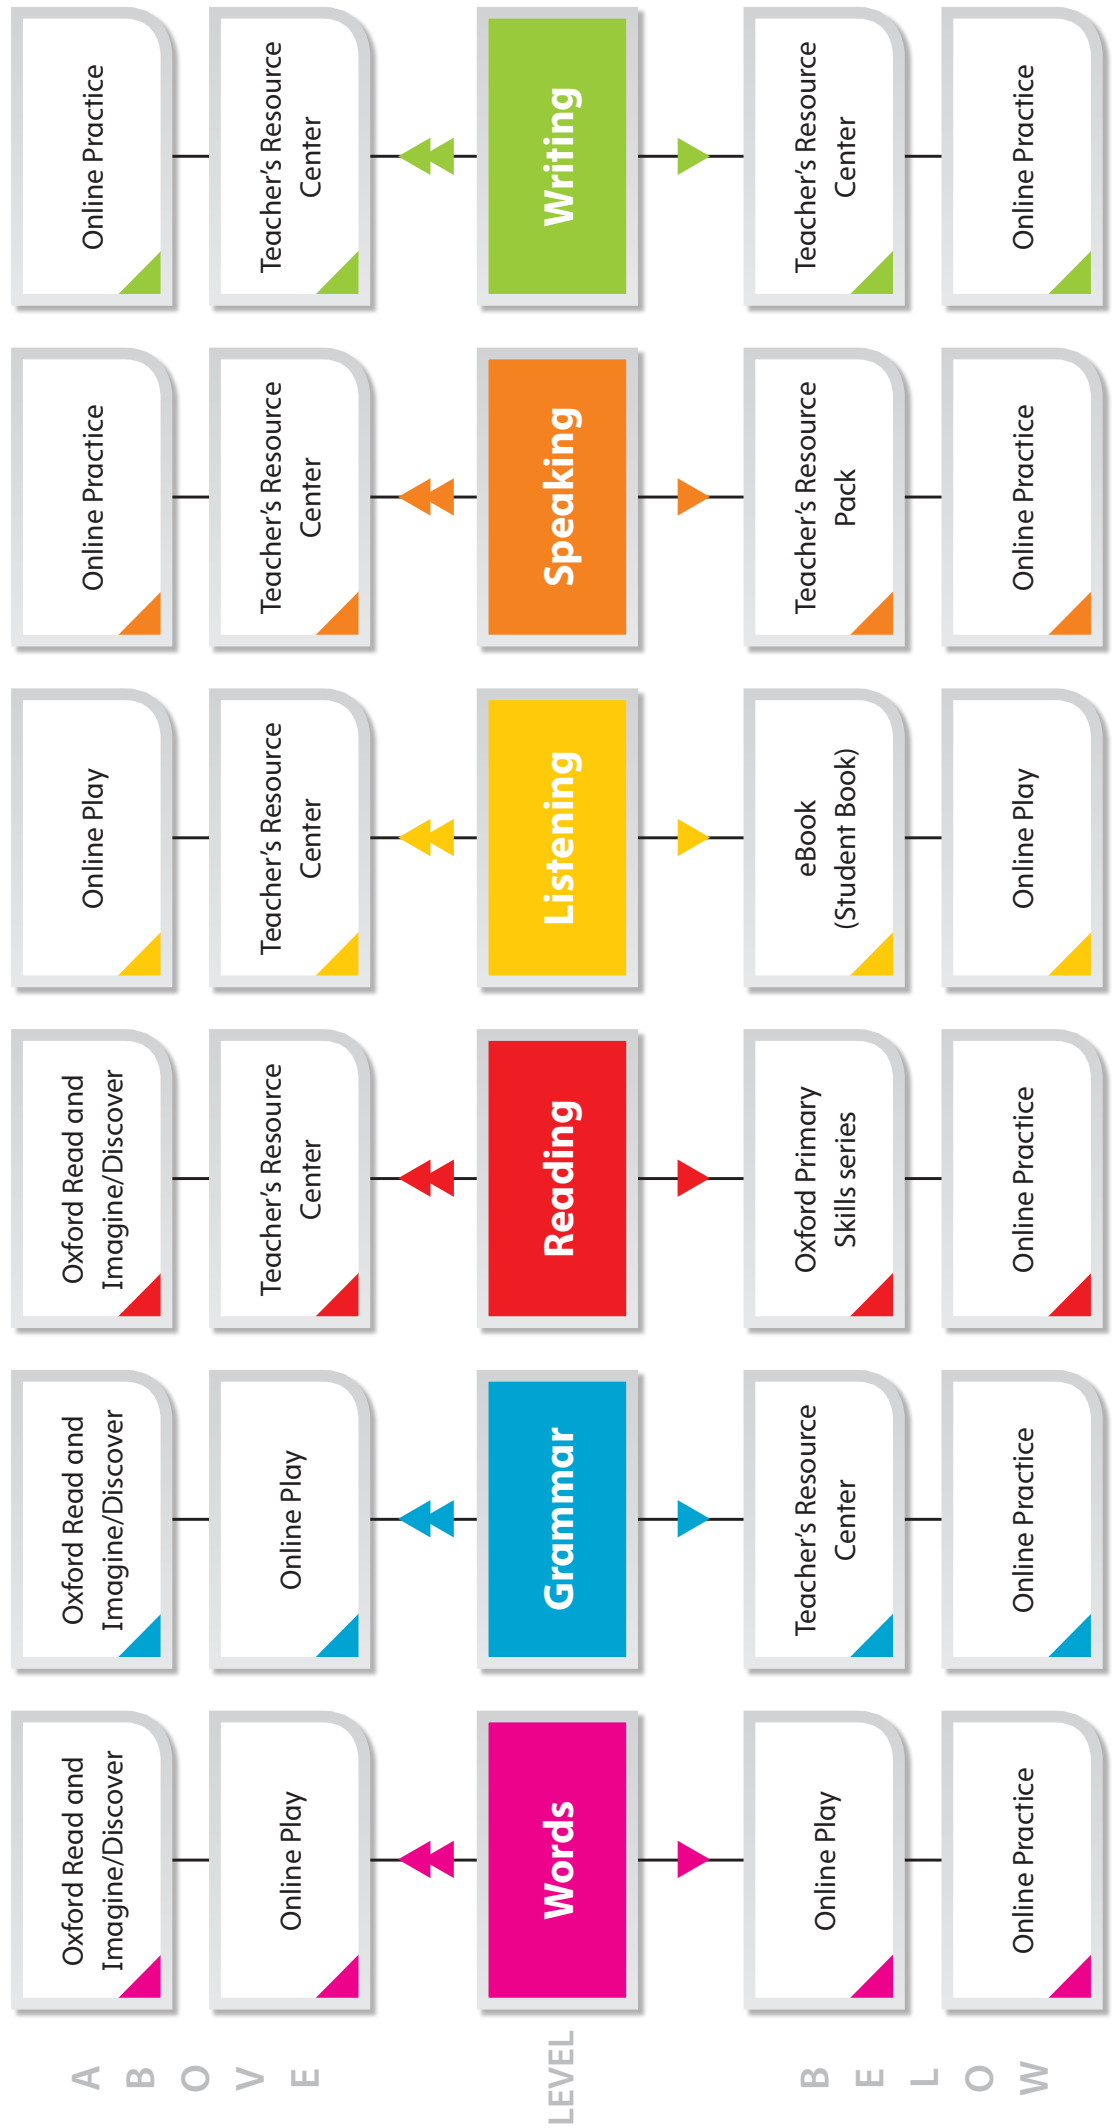

- Think about where your students are sitting. Place less confident students closer to you, so that you can deal with any issues.
- Some more confident students may enjoy being "volunteer teaching assistants". This will allow confident students to revise new language while helping other students to learn it.
- Give simple, clear instructions so that students of all levels can understand you easily. Use hand gestures as well as words to explain the activities.
- Don't grade your language as much when talking to confident students. They will benefit from the extra natural language input and one-to-one interactions will encourage them to explore language further.
- Set goals for each lesson to help the students to focus. The goals can be different for each student, depending on their abilities, but reaching the goals will give the same sense of achievement to all students.

Support and extension material

There is a wealth of support and extension material available to *American Family and Friends 2nd Edition* students, offering additional practice in skills, vocabulary, and grammar. The Online Practice and eBooks, as well as the *Oxford Skills* series and *Grammar Friends*, provide plenty of reinforcement for less confident students and further practice for confident students.

American Family and Friends 2nd Edition includes a diagnostic test to be completed at the start of each year. This will enable you to assess your students' abilities and decide which material will be most useful. The progress tests after every three units will help you to check your students' progress and provide reinforcement where necessary.

Drama in the classroom

How to present the stories

Each story has a receptive and a productive stage. In the receptive stage, students listen to the story and follow it in their Student Books. In the productive stage, students recall the story, listen to it again, and act it out.

Acting out the stories

There are various ways of acting out the stories, depending on the size and nature of your class.

Acting in groups

The following procedure is suggested in the teaching notes for each unit:

- Decide as a class on actions for each character at each stage of the story (students may suggest actions which are not shown in the pictures).
- Divide the class into groups so that there is one student to play each character. To keep disruption to a minimum, students could turn their chairs to work with those behind them and remain in their seats.
- Play the recording. Students practice the story in their groups, saying their character's lines (if they have any) and doing their actions. Props can be used if you wish, or you may prefer objects from the story to remain imaginary.
- At the end of the exercise, invite some of the groups to act out their story at the front of the class.

Acting as a class

As an alternative, you may wish to act out the story as a class:

- Decide together on actions for the story which students can do at their desks without standing up (e.g. they could 'walk' their fingers to show that the character is walking).
- Play the recording to practice reciting the lines. Students mime the actions for each character as they speak.
- Play the recording again for students to give their final performance.

Acting with a "lead group"

This is a combination of the two previous procedures:

- Decide on actions for the story as above.
- Divide the class into groups so that there is one student in each group to play each character. Students should all be facing the front of the class and not the other people in their groups. They won't need to leave their seats.
- Ask one of the groups to come to the front of the class.
- Play the recording. The group at the front demonstrate the actions to the class.
- Play the recording again for the rest of the students to join in with the actions.

Class plays

The Teacher's Resource Center contains two plays for the whole class to act out, one at the end of each semester.

Preparing the plays will take several lessons: discussing the play and allocating parts, deciding on and organizing props and costumes, and finally, rehearsing. If possible, arrange a performance of the plays for parents.

Assessment

Student's progress can be evaluated through ongoing assessment, self-assessment, and formal testing. *American Family and Friends 2nd Edition* offers a comprehensive range of course assessment and practice for external exams such as Cambridge English: Young Learners (YLE).

The Course Tests section in the Teacher's Resource Center offers:

- suggestions for ongoing classroom assessment
- an assessment sheet to keep a record of students's progress
- suggestions for encouraging students to self-assess
- 13 unit tests
- 4 progress tests (for use after every three units)
- 4 skills tests (for use after every three units)

The Cambridge English: YLE Practice section in the Teacher's Resource Center offers:

- Notes, tips, and vocabulary lists for the Flyers tests
- Preparation and practice tasks to help students become accustomed to the YLE task types
- The Preparation stage provides controlled practice of task types found in the Flyers tests, to help students gradually build up to the task. The Practice task then gives students a taster of a Cambridge style test before they attempt a complete YLE Practice Test
- Sample YLE Practice Tests for the Flyers Reading and Writing, Listening, and Speaking tests

Further information on testing and assessment (including the scoring system) can be found in the introduction sections of the Teacher's Resource Center.

Digital learning

The use of technology in language learning can allow the teacher to become a facilitator and a moderator, whilst the student is able to work more independently, connect to additional resources, and transfer knowledge both within and beyond the classroom. Immediate collaboration and feedback are also significant benefits of effective technology implementation, through the use of tablets, classroom presentation tools, and learning management systems.

eBooks

American Family and Friends 2nd Edition can be accessed in its print edition or in eBook form. eBooks are most commonly accessed on tablets, although they can also be used on laptop computers. Tablets provide a large amount of flexibility, not only because they allow students to store an enormous amount of text books and information on one, small device, but also because they contain innovative learning tools which can be used both inside and outside the classroom.

Learning Outcomes

Students can easily use tablets to help them search for vocabulary, translation, and pronunciation, as well as images, audio, and video. However, to ensure that the tablets are used effectively as a learning tool, teachers need to think about the following points:

- How will using the tablet help fulfil our learning outcomes?
- How will students be using the tablet?
- What is my role when the tablets are being used?

Fundamentally, tablets are just another useful tool to assist in language learning. Different learning outcomes will lead to varying amounts of tablet use. Just as with print textbooks, students need time to work together to complete exercises and activities, to check their work and to discuss ideas and work on projects. Spoken production should still be an important part of the lesson.

Classroom management

An eBook based lesson must be a controlled, well-planned lesson. Before starting, think about whether you want your students to work in groups or individually.

Independent work

- If each student has a set of headphones, they can work independently without disturbing others.
- Ask students to turn their devices face down until you tell them to start working in the eBooks. Tell students that they should complete interactive activities only when you give the go-ahead.
- Only upon your instruction should students press the 'check answers' button.

Group / paired work

- Put students into groups with one device per group. Students can take turns to answer a question within interactive activities.
- Groups can compete against each other for points.

Whole class work

- Designate one student to play audio on their device with the volume turned up for everyone to listen to as you work through the lessons.

Online Practice

For teachers

American Family and Friends 2nd Edition Online Practice is available using the access code in the Teacher's Book Plus. It allows teachers to:

- Create online classes for the course using the 'Manage Classes' feature.
- Assign work directly linked to the Student Book.
- Set practice activities dedicated to the course vocabulary, grammar and skills.
- Track student progress by viewing detailed class and student reports.
- Engage students in various forms of written English such as email and forum discussion.

For students

Online Practice is available to students using the access card in their Workbook (with Online Practice). Students will be able to:

- Complete specific language-focused activities that link directly to the course
- Have their work automatically scored and graded.
- Share their work with other students in the 'class' setup by the teacher.
- Send emails and take part in English discussions as their level increases.

Online Play

Online Play is a place for students to access the audio and video animations, downloadable activities, and to explore language further through fun vocabulary games and activities. Throughout the Teacher's Book lessons you will see Online Play icons, demonstrating how to integrate the audio and activities into lesson extensions.

Audio

Students need to listen to English again and again in order to improve their receptive skills. Online Play offers a place where students can access the songs, chants, and target language at home.

Stories

Watching the unit stories come to life provides consolidation of the target language from the first two lessons of each unit.

Downloadable activities

There are a number of fun craft and downloadable activities for students to complete at home. These can be done in conjunction with parents but are also simple enough for students to work with by themselves.

Language games

Students need to have fun with language. These games encourage students to work with target language at their own pace and without being graded. Many games have more than one level, providing support for less confident students and challenge and extension for more confident students.

Tour of a unit

Lesson One Story

Lesson 1 presents the unit topic via a *Do Something Different Club* story. Students read and act out the story and are exposed to the language that they will be studying in Lesson 2.

The students listen to the story and follow the words in their books.

The students listen to the story again and now produce the language by repeating and then acting out the story.

The students do a written activity to check comprehension.

6 Crazy about wildlife!
Lesson One Story

1 Listen and read. What is the TV show about?

1 **Libby:** Please don't film the river yet. It isn't clean. Can you film the mountains or the woods first?
Kevin: I've seen. What happened to the river?
Kate: Someone dumped lots of garbage in it. We're helping to clean up and save the birds.

2 **Kevin:** OK, we're going to make a different show. We're going to film you cleaning up. It will be great.
Ed: Really? That's so exciting! We're going to be on TV!
Kevin: The children have worked hard all afternoon.
Kate: Oh, look! That's me!

3 **File:** And there's Libby!
Libby: We're very glad that the river is safe again. Now we're going to take all the litter to the recycling center.

4 **Woman:** Thanks to the DSD Club for all their help, they can have free visits to the wildlife park any time.
Ed: Wow, that's great! I've going to go next weekend.
Libby: Me too. But this time I'm not going to go in the river!

2 Listen to the story again and repeat. Act.

3 Read again and circle.

- The children don't want the TV crew to film the river / mountains / woods yet.
- The TV crew is going to make a different clean-up / show.
- The children are going to take all the litter to the recycle house / recycling center.
- Ed is going to visit the park next month / weekend.

58 Unit 6 Crazy about wildlife!

Presenting the story and acting it out

- Focus students' attention on the pictures and the story. Ask simple prediction questions such as *Who's this? Where are they? What's this?*
- Play the recording the whole way through for students to listen and follow in their books. Then ask the gist question in Exercise 1.
- Play the recording a second time and ask more questions to check comprehension.
- Play the recording again. Pause after each line for students to repeat.
- Divide the class into groups, with each student having a different role in the story.
- As a class decide on actions for the story.
- Play the recording. Each student says the lines of his/her assigned character. Encourage students to perform actions as they speak.
- Repeat without the recording, encouraging students to remember the sentences.
- If you wish, move on to individual practice by calling groups to the front to act out the dialogues, with or without the recording.
- A final written activity consolidates comprehension of the main points of the story.

Workbook

The students do written activities to consolidate and extend their understanding of the story and its themes.

6 Crazy about wildlife!
Lesson One Story

1 Look back at Exercise 1 on page 58. Write the correct words.

1. The children don't want the TV crew to film the river / mountains / woods yet.
2. The TV crew is going to make a different clean-up / show.
3. The children are going to take all the litter to the recycle house / recycling center.

59 Unit 6 Crazy about wildlife!

Online Practice allows the students to practice the language further.

Lesson Two Words

Lesson 2 teaches and practices the first new vocabulary set which the students have been exposed to in the Lesson 1 story. Students are also introduced to a *Working with words* vocabulary set and develop their dictionary skills.

The students listen and repeat the words as they point to the pictures. The Workbook Dictionary pages are referenced so that students can check the definitions of words.

The students practice the new words in a written activity.

The students learn a *Working with words* point and a new set of words that demonstrate this point. They research the meaning of these words in the Dictionary pages in the Workbook.

The students listen and repeat the words.

The students practice the new words in a written activity.

Lesson Two Words

1 Listen and repeat.

2 Write the words.

3 Listen and repeat.

4 Write.

Working with words

We add the suffixes **-er** or **-or** to some verbs to make nouns:

verb	help	sing	invest	act	visit
noun	helper	singer	investor	actor	visitor

Teaching the words

Words

- Play the recording and ask students to repeat the words.
- In some units, definitions of words are given, and in others pictures illustrate their meanings. When pictures are given, the Workbook Dictionary pages are referenced so that students can also check the definitions of words.
- The students practice the words in a written activity.

Working with words

- Ask students to read *Working with words* box. Students research the meaning of the new words in the Dictionary pages.
- Play the recording and ask students to repeat words.
- The students practice the words in a written activity which can be done individually or in pairs.

Workbook

Students practice recognizing and writing the new words from the lesson. They also learn the new words that extend the *Working with words* set and practice writing the *Working with words* vocabulary.

Online Practice allows students to practice the vocabulary further.

Lesson Three Grammar 1

Lesson 3 presents a grammar point in a variety of text types, including cartoon strips. Students learn and practice recognizing and producing this grammar point.

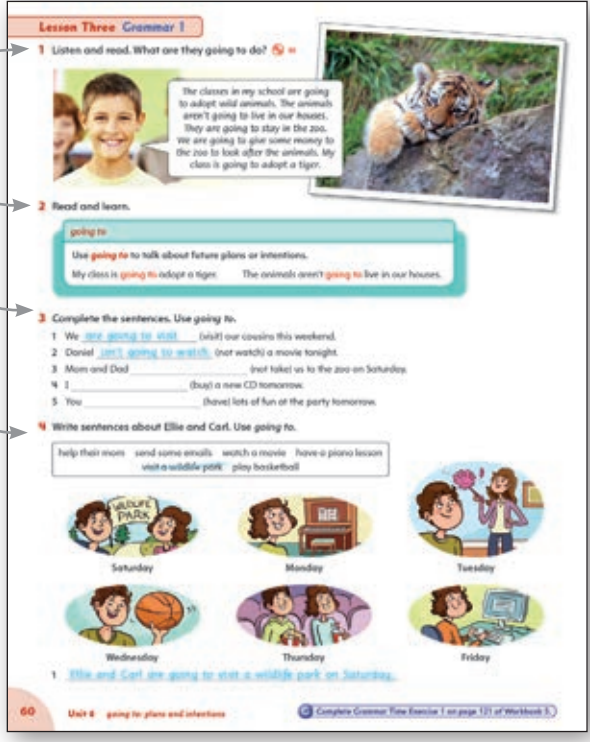

The students listen to a text or a grammar cartoon and follow the words in their books.

The students study a new grammar structure.

The students practice the new grammar in an activity.

The students practice producing the new grammar through a written or speaking activity, using word prompts or picture prompts.

The students can then work on the Grammar Time material at the back of the Workbook.

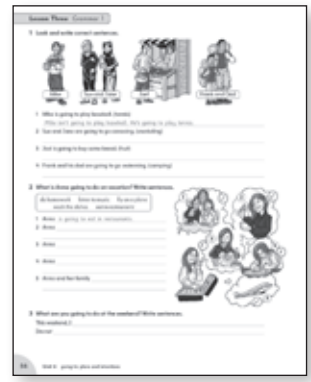

Teaching the grammar

- In some units, the new grammar is introduced in the context of a cartoon featuring Professor and his robot assistant Chip. In other units, the first grammar point is presented through a written text.
- Play the recording the whole way through for students to listen and follow in their books. Then ask the gist question in Exercise 1.
- Play the recording again and ask more questions to check comprehension.
- Go through the grammar rules with the class and check comprehension as suggested in the notes.
- The next activity is a written activity which practices and consolidates the grammar. A model is provided on the page. Students complete the activity independently.
- The final activity is a speaking or writing activity which gives students practice in manipulating the structure. Students work with their partner using the word or picture prompts.
- At this point students are encouraged to complete the relevant Grammar Time exercise at the back of their Workbooks.

Workbook

The students practice recognizing and writing the first grammar point from the lesson using the reference tables in the Grammar Time section at the back of the Workbook to help them.

Online Practice allows students to practice the new grammar further.

Lesson Four Grammar 2

Lesson 4 presents a new grammar point in a variety of text types, sometimes via a short cartoon strip featuring fun and motivating characters *Professor* and his robot, *Chip*. Students learn and practice recognizing and producing this grammar point.

Repeat the procedure for teaching the first grammar point in the previous lesson.

The students practice the new grammar in a recognition activity.

The students practice producing the new grammar further in a spoken or written activity.

1 Listen and read. Does Chip try to help?

PROFESSOR & CHIP

Oh no. My cat is on the tree and it can't get down. It's going to fall!

Look! Chip is going to help my cat. He's going to climb the tree.

Oh no. The cat is safe, but Chip can't get down. Silly Chip. He's going to be there all day.

Chip ... Help?

2 Read and learn.

going to

Also use **going to** to make predictions about things we can see.

It's **going to** fall. He's **going to** climb the tree.

3 Match the sentences and pictures.

1 It's going to rain.

2 They're going to play soccer.

3 She's going to water the plants.

4 He's going to watch a movie.

4 Speaking Ask and answer.

ride a camel feed the penguins wash the elephants
visit the reptile house jump into the pool buy a gift

What is Jenny going to do?
She's going to feed the penguins.

Complete Grammar Time Exercise 2 on page 111 of Workbook 5. **going to predictions Unit 4 61**

Teaching the grammar

- The grammar point is presented in a text or cartoon strip.
- Play the recording the whole way through for students to listen and follow in their books. Then ask the gist question in Exercise 1.
- The grammar rule activity is done in the same way as the first. If the two points are linked, elicit examples of the first grammar point and any 'rules' the students can remember.
- The next activity is a written activity which practices and consolidates the grammar. It can either be done in class or set for homework. A model is provided on the page.
- The final activity is a productive activity, either written or spoken. In this case, it is a spoken activity. Students practice manipulating and producing the structure.
- At this point students are encouraged to complete the relevant Grammar Time exercises at the back of their Workbooks.

Workbook

The students practice recognizing and writing the second grammar point from the lesson using the reference tables in the Grammar Time section at the back of the Workbook to help them.

1 Match the pictures.

1 They're going to rain.

2 They're going to play soccer.

3 She's going to water the plants.

4 He's going to watch a movie.

2 Complete the sentences. Use going to.

1 I'm going to ...

2 They're going to ...

3 She's going to ...

4 He's going to ...

3 Write a sentence about each picture.

1 She's going to water the plants.

2 They're going to play soccer.

3 He's going to watch a movie.

4 It's going to rain.

Online Practice allows students to practice the new grammar further.

Lesson Five Skills Time! Reading

Lesson 5, 6, and 7 provide a focused study of skills. Lesson 5 provides reading comprehension practice through a variety of reading texts.

The students look at the text and the pictures and answer a pre-reading question.

The students read and listen to the text for the first time and check if their answers to the pre-reading question were correct.

The students read the text again, this time looking for details that will enable them to complete the comprehension activity.

Teaching reading

- Approach a new text in two stages. Explain to the students that they do not have to understand every word to understand a text. By focusing on the language they do understand, it is possible to guess or use logic to work out the meaning of the rest.
- *Pre-reading (Exercise 1)*: This stage is about looking for clues to help the students piece together the meaning of the text. This includes looking at the picture and the text style to guess what type of text it is and what it is likely to be about. Point to the picture and ask students the pre-reading question.
- *Reading first for gist (Exercise 2)*: Play the recording while the students follow the text in their books. They do not need to be able to read every word independently, but be able to read carefully enough to understand gist. Ask some simple comprehension questions to ensure they have understood the general point of the text.
- *Reading for detail (Exercise 3)*: Go through the comprehension activity with the class so that students know what information to look for in the text. Give them time to read the text again to find the answers. Encourage students to try and work out the meaning of new words by using the surrounding words and the context to help them. Have a class feedback session.

Workbook

The students further practice reading for gist and detail in the Workbook. They read a new text of the same text type and complete a comprehension activity.

Online Practice allows students to practice reading further.

Lesson Six Skills Time! Listening and Speaking

Lesson 6 teaches the new vocabulary that students were exposed to in context in Lesson 5, and further develops dictionary skills. The lesson also focuses on listening comprehension and speaking skills.

The students look at the text or pictures and find the matching words in the text on the previous page.

The students listen to a recording and answer a gist question.

The students listen to the recording again, this time listening for specific details that will enable them to complete the comprehension activity.

The students practice speaking in pairs, using prompts linked to the reading and listening activities. They are encouraged to give their own opinions.

Teaching the words

Words in context

- Students look at the pictures or words and find the matching words in the text in Exercise 1 on the previous page.
- The students refer to their Dictionary pages to match words with their definitions.

Teaching listening and speaking

Listening

- To follow a listening text, the students should be aware that they do not need to understand every word. As students reading, they listen for the words they do know, and then use clues and logic to work out the rest.
- *Listening for gist (Exercise 2):* Play the recording the whole way through. The students listen and answer the gist question.
- *Listening for detail (Exercise 3):* Play the recording again, pausing for students to complete the activity.

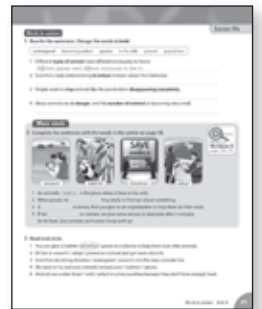

Speaking

- The speaking task aims to develop speech that is clear and fluent. The students will also learn to speak expressively and confidently.
- Call two volunteers to come to the front and demonstrate how to ask and answer the questions using the dialogues in the speech bubbles. Explain that the prompts are only ideas and they can give different answers. Ask the volunteers to provide an alternative answer to one of the questions as an example.

- Ask the students to repeat chorally, emphasizing correct intonation in the questions and answers.
- The students then carry out the speaking activity in pairs.

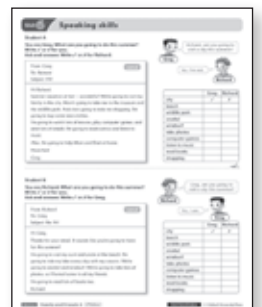

Workbook

The students practice recognizing and writing the new words from the Student Book. They practice using their dictionary skills to check meaning of the words in the text on the previous page.

Teacher's Resource Center

For every unit there is a Speaking skills worksheet. This contains an extended information gap speaking task that students carry out in pairs.

Online Practice allows students to practice the vocabulary further.

Lesson Seven Skills Time! Writing (Poster and Student Book)

In Lesson 7, the students learn key writing and literacy skills from the Poster and Student Book. Students' writing is then further developed in the Workbook.

The writing text types and writing points are presented on the poster. Students answer *Before and After reading* questions to check their comprehension of the writing points. The students practice recognizing or producing words or sentences with the target literacy skill.

Students focus on identifying some of the writing points from the Poster in a different text.

Students answer some comprehension questions on the text.

Students practice recognizing the writing points.

Teaching writing

Poster

- Students look at the poster. They follow the text in the poster handout (see Teacher's Resource Center) as you read it aloud.
- Discuss the text and the pointers in the text boxes with the class. Check comprehension.
- The students do the related exercises in their Student Books before moving on to the writing task in their Workbooks.

Student Book

- The students skim-read the text looking for key words rather than trying to understand every word. They then answer the gist question.
- The students read the text for the first time. Ask volunteers to read the text aloud to the class. Help with pronunciation of new words.
- The students read the text again silently and answer questions to check comprehension. Go through the answers with the class.
- The writing rule activity is done by students at their desks. They can take two or three minutes to silently read and learn the rules. Check comprehension by asking questions about the text and eliciting further examples.
- The final activity is a written activity which practices and consolidates the writing rule.

Teacher's Resource Center

Students follow their own copy of the Poster text on the Teacher's Resource Center handout.

Online Practice allows students to practice the writing further.

Lesson Seven Skills Time! Writing (Workbook)

On the Workbook page, students do a further exercise to practice the writing point in the Student Book before going on to complete a free writing activity.

Students practice the writing points from the Student Book in a further recognition activity.

Students apply the writing points to a personalized writing task.

Workbook

Writing

- Students do the recognition activity alone or in pairs and then feed back to the class.
- This activity reinforces the writing points the students covered in the Poster and Student Book, and acts as preparation for the writing task they are about to complete.

My writing

- Students extend their writing skills through a personalized writing task. This is an opportunity for them to write an extended text following a model they have seen on the Student Book and Workbook pages.
- Where relevant, look at the visual prompts as a class. Ask students questions to check comprehension.
- Ensure that the students understand what type of sentences they need to produce in the writing task. Elicit examples and write them on the board.
- When they have finished, ask some students to read their texts to the class.

Teacher's Resource Center

For every unit there is a Writing skills worksheet on the Teacher's Resource Center. This allows students to combine the writing points they have learnt from the Poster and Student Book in a free writing task.

Fluency Time! Craft

The Craft lesson provides further and more extended speaking practice of the new language, by making and using a craft activity which is linked directly to the Fluency Time! topic.

The students watch the story on the Fluency DVD. They then produce the language by acting out the story.

The students look at the photo, and follow the instructions to prepare their craft activity.

There are templates for each Fluency Craft on the Teacher's Resource Center.

The students produce the language in a freer speaking activity. In pairs, through games and role play, students use the completed craft project to practice *Everyday English* phrases in a more personalised dialogue, based on their own completed projects. They are encouraged to include additional words or structures that they remember from previous units.

Students are encouraged to present their crafts to the class, using prompts to support them.

Teaching crafts

Acting out the Story

- Focus on the story in Exercise 1 on Student Book page 76. Ask students what they can remember about the story.
- Play Fluency DVD Fluency Time! 3. If you don't have time for the DVD, read the dialogue on Student Book page 76.
- Invite pairs of students to act out the dialogue. Encourage them to change details to make their own variations of the dialogue.

Craft

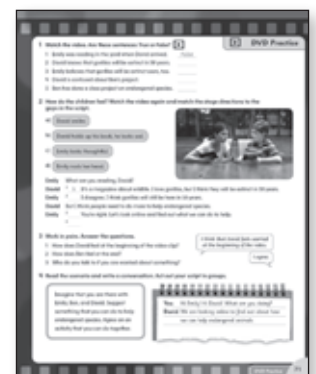

- Focus on the picture. Ask students what it shows (a poster of the student's favorite inventions) and what they can see on the poster.
- Hand out copies of the map template and the noticeboards template (see Fluency Project 3, Teacher's Resource Center). Check students have colored pencils, scissors and glue.
- If you prefer, students can work in pairs to prepare one map between them.
- Read out the instructions next to the map in Activity 1.
- Show the class your own completed map and ask questions about it, e.g. *Where is the name of the wildlife park? What animals can you see? How many noticeboards are there?*
- Move around the class as students work, asking questions, e.g. *What animals are in your wildlife park? What's the name of your wildlife park? What facts do you know about (tigers)?*

Speaking

- Focus on the photos. Tell students they are going to use their park maps to act out dialogues with a friend. They will take turns to ask about their partner's park, then express their opinions about different animals.
- Act out the example dialogue with a volunteer.
- Students then talk in pairs. Encourage them to compare and contrast different animals and express their opinions about the animals.
- Ask some pairs to act out dialogues for the class.
- Ask a volunteer to read out the example speech bubble, then invite students to tell the class about their wildlife parks. They can read the questions to help them, or you can ask the questions to prompt them.

Workbook

The students watch the Fluency DVD again and complete the comprehension activities on the DVD practice page.

As their level increases, students can use Online Practice to write about their crafts.

Science Time! Topic

The subject lessons come after every three units and focus on developing teaching content through English. The Topic lesson introduces new language related to the subject and provides reading and speaking practice.

Students look at the overall topic, including the pictures to understand the type of text they will read and to help them predict words and content about the topic.

Students read and listen to the text for the first time.

Students complete a comprehension task to check their understanding of the information in the text and to focus on the new vocabulary.

Students answer questions related to the topic. These questions invite them to personalize the information they have learnt in the text and to apply critical thinking skills to the topic.

Teaching Topic lessons

Pre-reading

- Ask students to look at the pictures. Discuss the type of pictures in the text and how these pictures are related to the heading or title of the text.
- Ask students what they think the arrows in the main picture mean. Ask them if they know about food webs, and draw a very simple food web on the board to demonstrate.

Reading

- Use a variety of reading strategies in the different topic lessons. Have students read in pairs or read silently. Once students have read the text through for themselves, ask different students to each read a paragraph in the text aloud for the class.

Vocabulary/comprehension

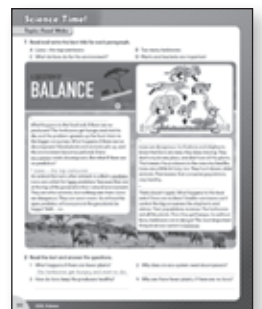

- Before students complete the exercise ask them to find the words in the text.
- Encourage students to understand the meaning from the context. Tell them to look at the other words before and after the key word, and to read the entire sentence. In this way they can work out the part of speech and infer the general meaning.
- Have students complete the exercise and then check their answers in pairs before checking the answers with the class.

Speaking

- Explain the aim of the questions (to find out about the topic beyond the information given in the text).
- Have students write down the answers to the questions.
- Put students in pairs to discuss their answers, or in small groups for a wider discussion.
- Have pairs say their answers to the class.

Workbook

Students read another text about the same topic, and answer comprehension questions.

Online Practice allows students to practice the vocabulary and explore the topic further.

1 Look at the poem and the pictures. What do you think happens in the poem?
2 Listen and read.

My tree house

I've always wanted a tree house.
I think they're great places to play.
My dad drew the plans for a tree house
And we started to build it one day.

Dad got some boards and a tool box,
He said, "Now we're building. That's good."
He tried not to laugh very loudly
When I nailed my coat to some wood.

Soon my new tree house was ready.
It looked wonderful there on the grass.
Four walls and a door and a carpet
And two windows, both with real glass.

The windows were two different sizes
And the door wasn't perfectly straight.
The walls were a little bit crooked
But Dad thought my tree house was great.

Dad got some rope and a ladder.
He pulled the house into the tree.
My tree house looks crazy and funny
But I think it is perfect for me.

Bill Robbins

3 Read again and circle.

1 Bill's dad drew the <u>plans</u> / boards for the tree house.	2 Bill nailed his coat to some <u>hammers</u> / wood.
3 Dad thought the tree house was <u>great</u> / crooked.	4 There was <u>real glass</u> / carpet in the windows.

Warmer

- Review the tool words necessary for the poem by asking questions or giving clues, e.g. *What do you use to cut wood? You can paint a wall with this.*
- Once you have reviewed the words, write the following words in a vertical list on the board: *saw, nail, rope, tray*.
- Ask students to think of as many words as possible that rhyme with the four words. Write them next to each, e.g. *saw, (poor, four), nail, (sail, tail), rope, (soap, boat), tray (play, day)*. If necessary, give some examples first.

1 Look at the poem and the pictures. What do you think happens in the poem?

- Ask students to look at the pictures. Tell them that they are going to read a poem. Ask *What do you think happens in the poem?* Encourage students to make predictions about what happens in the poem.

- Ask students to skim the poem to find out what happens. Tell them not to try to understand every word at this stage but just get an idea of what happens.

2 Listen and read. 08

- Tell students they are going to listen to a poem.
- Play the whole recording as students read along.
- Play the recording again, pausing regularly. Check that students understand and answer any questions. Encourage them to figure out the meaning of new words, including those underlined, through context.
- Ask comprehension questions, e.g. *Who was building the tree house? Is it a good tree house?*
- Compare the predictions made in Exercise 1 with the content of the poem. How many predictions were right?

3 Read again and circle.

- Ask students to read the sentences silently.
- Look at the example together and explain that they have to circle the correct word in each sentence.
- Let students complete the exercise, then check answers.

Differentiation

Below level:

- Assign a target word from the poem to each student. Ask them to draw a picture to illustrate the word's meaning. Tell them to write the word on one side of the paper and the picture on the other, like a flashcard. Give out paper and colored pencils. After students finish drawing, they come up one by one as their classmates identify the words. Monitor, help, and elicit as needed.

At level:

- Divide the class into two teams. With books closed, ask students these questions: *What has the boy always wanted? (a tree house) / Who drew the plans for it? (Dad) / What tools did they get? (nails, a hammer, and a saw) / What did the boy do to his coat? (He nailed it to a board.) / How many windows did the tree house have? (two) / Were the walls crooked or straight? (crooked) / What did Dad use to pull the house into the tree? (a rope and a ladder)*. The team with the most correct answers is the winner.

Above level:

- In pairs, students prepare two sentences about the poem in Exercise 2. One sentence must be true and the other false. With books closed, students take turns to stand and say their sentence to the class. The class votes on whether the sentence is true or false.

Our kite

Last week we made a big kite.
We had a lot of fun.
My brother drew some great plans.
The kite looked like the sun.
We found some string and paper.
Some nails and glue and wood.
We sawed and glued and hammered.
The kite looked really good.
We pointed the kite yellow
Then we left it out to dry.
And soon the kite was ready.
It was time for it to fly!
We held on to the kite string
And the kite flew fast and high.
It really looked amazing
As it flew across the sky.

by Jessy Bell

3 Read again and answer the questions.

- 1 What did the children use to make their kite?
- 2 Did their kite work?

A poem: pattern and rhythm

When we write a poem we follow a pattern:

	syllables
Last week we made a big kite.	= 7
We had a lot of fun.	= 6
My brother drew some great plans	= 7
The kite looked like the sun.	= 6

The syllables in red are stressed. We say the stressed syllables more strongly than the others. This gives our poem a rhythm.

4 Count the syllables. Underline the syllables that are stressed.

We found some string and paper.
Some nails and glue and wood.
We sawed and glued and hammered.
The kite looked really good.

5 Complete the writing task on page 12 of Workbook 5.

Unit 1 Writing a poem: pattern and rhythm

- Point to verse five on the poster. Ask students to count the syllables in lines 1 and 3, and 2 and 4.
- Read the second text box on the right and point to the stressed syllables in verse six. Say the verse together paying attention to rhythm and stress.
- Ask the "After reading" questions. Discuss their answers.

1 Look at the text. Who do you think wrote it?

- Give students a few seconds to read the title and skim the poem, looking for key words only.
- With books closed, ask them who they think wrote it.

2 Read.

- Choose five students. Assign each a verse to read.
- Choose five different students and repeat.
- Discuss the poem and ask comprehension questions, e.g. *What did the children make?*

3 Read again and answer the questions.

- Ask students to read the poem again silently.
- Then ask questions. Give students one or two minutes to check the text if necessary, then check answers.

ANSWERS

1. string, paper, nails, glue, wood, a saw, a hammer, yellow paint 2. Yes, it did.

4 Count the syllables. Underline the syllables that are stressed.

- Read the rule in the Writing box. Check that students know how to count syllables and identify stressed ones.
- Write *bro-ther* on the board. Say the word, stressing the two separate syllables. Repeat with other examples.
- Let students complete the exercise, then check answers.

Differentiation

Below level:

- Look at the example together. Read each word aloud. Ask students to clap out the syllables with you. Read the line again and emphasize the stressed syllables. Put children into pairs to complete the activity.

At level:

- Students complete the activity.

1. Yes 2. No 3. Yes 4. Yes 5. No

3 Ask and answer. Use the prompts or your own answers.

- Ask a volunteer to act out a sample dialogue with you.
- In pairs, children read the example dialogue, and then choose words from the box to act out more dialogues.
- Extend the activity by using other games, e.g. volleyball / tennis / catch, and make new dialogues.
- Invite some pairs to act out their dialogues for the class.

Differentiation

Below level:

- Break the dialogue up into three shorter exchanges. Have students practice the first question and answer a few times, then move on to the other two. Make sure students switch roles for even practice.

At level:

- Play a guessing game. Ask a child to come to the front of the class and mime an activity. The rest of the children take turns to ask *Do you want to (play basketball)?* The child answers *Yes, I do!* or *No, I don't!* The first child to guess the activity can take a turn to mime a different activity for the rest of the class to guess.

Above level:

- Put students into pairs. Ask them to write their own dialogue based on the one in Exercise 3. Have students practice. If time permits, they can role play for the class.

Materials

Fluency DVD Fluency Time! 1 (optional); Fluency Craft 1 (Teacher's Resource Center) (one set of templates per student); completed mini book; colored pencils, scissors, and glue for each group; photos or pictures of park / playground activities (optional)

1 Look at the story again. Act.

- Focus on the story in Exercise 1 on page 16. Ask students what they remember about the story.
- Play Fluency DVD Fluency Time! 1 Everyday English. If you don't have enough time, read the dialogue on page 16.
- Invite groups of students to act out the dialogue. Encourage them to change details for variation.

2 Make a mini book about free-time activities.

- Focus on the pictures. Ask students what the picture shows (*a child making a mini book*).
- Divide the class into groups. Give each child a copy of the mini book template (see Fluency Craft 1, Teacher's Resource Center). If the children have brought photos / pictures of park / playground activities to class, ask them to show them to the class and say what activities each photo / picture shows.

- Use the pictures and instructions to help students make mini books. Demonstrate with your completed one.
- Move around the class and ask questions, e.g. *Who's this? Where were you in this photo? What are you doing in this picture?*

NOTE: If you do not have time to use photocopies, ask students to draw two or three "photos" and write captions under each one. If you like, ask the children to bring in some real photos or pictures from magazines.

3 Use your book to discuss activities. Ask and answer.

- Focus on the photo. Tell students they are going to make a dialogue in pairs.
- Students then act out dialogues in pairs, taking turns. Encourage them to add language to their dialogues such as *What do you like doing? Do you like playing football? Why don't we ...?*
- Children swap pairs to act out dialogues with new partners.
- Invite some pairs to act out their dialogues for the class.

4 Work in groups. Talk about your free-time activities.

- Put students into groups. Ask them to talk about the activities in their mini books. They can read the questions, or you can ask the questions as prompts.

Differentiation

Below level:

- Put students in groups of three. Ask them to switch mini books. One at a time, students take turns making one sentence about their classmate's free-time activities. Monitor and help as needed.

At level:

- Play a memory game with the mini books. Students pass their books to the child on their left. They look at it for a minute. Then close it and write two sentences about the child who made it, e.g. *Peter goes to the park on Saturdays. He likes skateboarding in the park.* Students give the books back to their owners. Then take turns to read their sentences aloud. The books' owners say if the sentences are correct.

Above level:

- Do the "at level" activity, but ask students to write four sentences.

1 Look at the photos. What do you think the people are celebrating?
2 Listen and read.

All around the world, people celebrate special occasions with festivals, parades, costumes, food, and other traditions. Many of these celebrations are connected to the seasons.

New Year
One of the most popular celebrations around the world is New Year, but people in different countries celebrate the New Year at different times and in different ways. In Ecuador, the celebration of the New Year starts on January 1st. On New Year's Eve, people make a straw man and dress it in old clothes. The straw man represents the old year. At midnight, people burn the straw man and say goodbye to the old year.

Harvest
Harvest is an important time, because it brings us food. The most famous harvest festival is Thanksgiving, in the U.S.A., but many other countries celebrate and give thanks for their harvests, too. In China, people celebrate the harvest of rice and wheat with the Harvest Moon Festival. They look at the full moon, eat delicious moon cakes, and have parades with lanterns and puppet shows.

Spring
Many cultures celebrate the end of winter and the arrival of spring, because plants start to grow and there is new life everywhere. In India, people celebrate spring with the Holi color festival. They burn incense, dance around huge fires, and dance in the streets, throwing colored powder and water at each other. Older people give out money and traditional candy.

Lost at the parade

It was the sunniest day of the year. Harry and Emily were very excited because they were at the parade with their mom and dad. Harry had a superhero costume with a long, red cape. Emily was dressed up as a pop star.

Harry and Emily loved the parade. They waved at the floats and they looked at all the wonderful costumes and floats. Just then, some dancers and people on stilts came down the street. The dancers moved between Harry and his family. Harry tried to push through the crowd, but the dancers moved too fast. Harry couldn't get away, so he moved down the street with the dancers.

Suddenly, Harry thought he saw a stage. He climbed onto it and looked around for his parents. But then Harry started to move. He wasn't on a stage. He was on a float with a lot of dancers on it. Harry picked up a microphone.

"Hello," he said, and his voice came through all the speakers in the street. "I'm Harry. Mom, Dad, Emily, can you hear me?"

Harry saw his mom and dad running through the crowd. "Where have you been?" they said. "And where's Emily?"

"I don't know," said Harry. "I thought Emily was with you! ..."

1 Look at the story and the picture. What do you think happens in the story?

2 Read. **The costume** by Robbie Turner

It was the day before the parade. Liam was outside the costume store. There was a wonderful firefighter costume in the window. Liam wanted the costume, but it was too late. A label on the costume said "SOLD."

At home, Liam made a parade costume, but his costume wasn't as good as the costume in the store. He hung his costume on his bedroom door and went to bed.

The next morning, Liam woke up early. He looked at his bedroom door and saw the firefighter costume from the store. There was a note on the costume. It said "To Liam, from Mom and Dad."

Liam was very excited. He put on the costume and ran downstairs. He hugged his mom and dad. "You're the best parents in the world," he said.

3 Read again and answer the questions.

1 Where is Liam at the beginning of the story? 2 What does Liam want to buy?

A story: beginnings and endings

When we write the beginning of a story, we write:

- when the story takes place
It was the day before the parade.
- who / where the characters are
Liam was outside the costume store.
- what the characters are doing / thinking / feeling
Liam wanted the costume, but it was too late.

When we write the ending of a story, we write:

- what happens in the end
He put on the costume and ran downstairs.
- how the characters feel
Liam was very excited.

4 Write B (beginning) or E (ending).

1 Lucy was very happy. She ran home to tell her parents all about her exciting day. E

2 It was a rainy Saturday afternoon and Billy and Kate were sitting in the living room. E

3 Donny and his brother felt very pleased, but they decided to be more careful in future. B

Lesson Five

Reading

1 Look at the pictures and the title. Who do you think lives in this house?

2 Listen and read.  37

An ECOHOME

Glenn Kangiser and his wife, Kathy, live in an interesting house. It's an eco home. Eco homes don't harm the environment. They use alternative energy. They don't use fossil fuels like coal or oil, so they don't use up the planet's resources or produce dangerous gases.

Glenn and Kathy's eco home is in California, U.S.A. It looks like a house from one of *The Lord of the Rings* movies. Most of the house is underground. The house was very cheap to build. It has wooden beams and wooden floors. The windows and skylights are recycled glass. There are solar panels to make electricity for the lights, CD player, and computer. Glenn and Kathy get water from a well and they grow vegetables in the mud on top of the house.

Glenn was reading a book about underground homes when he decided to build his own amazing home. He wanted somewhere unusual to live and he wanted to use recycled materials to build it. Now he and Kathy don't want to live anywhere else. They love their home because it helps the planet and it looks fantastic. They think that eco homes are a great idea for everyone.

3 Read again and correct the words in bold.

- Eco homes don't produce **dangerous chemicals**. Eco homes don't produce dangerous gases.
- Eco homes don't use **alternative fuels**. _____
- The house was **expensive** to build. _____
- The eco home has **stone** floors. _____
- Glenn and Kathy get **wood** from a well. _____

Getting back to nature

Do you want to enjoy an amazing vacation and help to protect the environment at the same time? Why not book a vacation in a Gateway eco cabin in Alaska?

The cabins are beautiful buildings. Builders used wood and mud to build the walls. There are skylights in the roof so we save electricity. The small skylights give us light in the day, so we don't use electric lights. We don't use chemicals to clean the rooms because we don't want to damage the environment.

You can walk in the mountains near the cabin and see lots of local wildlife. Enjoy a boat trip on the lake and see the amazing waterfalls, or visit the beautiful caves. Years ago, people used to live in the caves. You can still see some of the cave homes today.

In the Gateway cabins, you can have a great vacation and enjoy nature. *Come and visit us soon.*

3 Read again and answer the questions.

1 What did builders use to build the walls? 2 What can you do on your vacation?

Making writing more fluent

We can make our writing more fluent by using compound sentences. We can make a compound sentence by using *and*, *or*, *so*, and *because* to join simple sentences together.

Simple sentence: There are skylights in the roof. We save electricity.
Compound sentence: There are skylights in the roof *so* we save electricity.

4 Match to make compound sentences.

1 There was a lot of litter in the park.	<input type="checkbox"/>	a because cars pollute the environment.
2 It's good to use alternative energy.	<input type="checkbox"/>	b so the house is very bright in the daytime.
3 He rides his bike to work.	<input type="checkbox"/>	c because it's healthy and cheap.
4 We grow our own vegetables.	<input type="checkbox"/>	d so we decided to pick it up.
5 There is a skylight in the roof.	<input type="checkbox"/>	e because it doesn't damage the environment.

Learning outcomes

To make a poster about a concert, play, musical, or film
To practice making plans

Language

What's it about? What time does it start? The evening performance is sold out. Can we see the evening performance, not the matinee? Are there any seats left for that? How much are the tickets?

Materials

Fluency DVD Fluency Time! 2 (optional); Fluency Craft 2 (see Teacher's Resource Center) (one template for each student); completed poster; colored pencils for each group of students

1 Look at the story again. Act.

- Focus on the story in Exercise 1 on page 46. Ask students what they remember about the story.
- Play Fluency DVD Fluency Time! 2 Everyday English again. If you don't have enough time, read the dialogue on page 46.
- Invite pairs of students to act out the dialogue. Encourage them to change details.
- Play the Fluency DVD Fluency Time! 2 Everyday English again for students to watch and listen.

2 Make a poster about a concert, play, musical, or movie.

- Focus on the picture. Ask students to say what the picture shows (*a poster*) and what it is for (*a play*).

- Hand out copies of the template (see Fluency Craft 2, Teacher's Resource Center). Give students colored pencils. If you prefer, students can work in pairs.
- Read the tips on the poster in Exercise 1. Show the class your own completed poster and ask students to point to the correct parts of the poster (e.g. *Where does it say what the event is / how much the tickets are?*)
- Monitor and ask questions, e.g. *What is the event? What time does it start? Who are the actors?*

NOTE: If you do not have enough time, ask students to prepare their posters on a piece of paper.

3 Use your poster to make plans. Ask and answer.

- Focus on the photos. Tell students they are going to use their posters to act out dialogues making plans with a friend. They will take turns to suggest an event.
- Act out the example dialogue with a volunteer, using the details on the poster in Exercise 1, or your own poster, to complete the missing information.
- Students talk in pairs. Encourage them to add language, e.g. *It sounds exciting. / That's a bit early.*
- Ask some pairs to act out dialogues for the class.

4 Work in groups. Talk about concerts.

- Ask a student to read the example. Then ask students to talk about going to a concert / play / musical. Ask questions to prompt them.

Differentiation

Below level:

- Do the "at level" activity, but give students two minutes to look at each poster. If full questions are difficult, students can simply ask *What? Where?* etc.

At level:

- Students use their posters to play a memory game in pairs. They take turns looking at their partner's poster for one minute, then their partner takes the poster and holds it so that the first child can't see it. The child holding the poster asks four questions for the first child to answer, e.g. *What is the event? Where does it take place? When is the event? How much is a ticket?* Keep track of how many questions the first child answers correctly. Then they swap roles and play the game again with a different poster. The student who answers the most questions correctly is the winner.

Above level:

- Do the "at level" activity, but give students only 30 seconds to look at each poster.

1 Look at the article. What do you think it is about?
 a) how to recycle b) making new products from recycled garbage c) collecting garbage

2 Listen and read.

As good as new

We all want to help the planet, but we want to look good, too. Now you can buy lots of great clothes and accessories and protect the environment at the same time.

Do you like this fun bag? It's bright and trendy, but can you guess what people made it with? Have a look ... old juice cartons!

This colorful T-shirt was once plastic bottles! It takes five large plastic bottles to make one large T-shirt. Scientists can make baseball caps from plastic bottles, too. They can also make sneakers from car tires!

Guess what! People used old newspapers, comics, and bus tickets to make these beautiful bracelets.

Next time you are out shopping, see how many recycled items you can find. Or why not try making something new from your old garbage? You can make greeting cards from old paper and magazines. You can make book covers from old plastic bags, posters, maps, or even clothes. You can save wrapping paper, gift boxes, and ribbons and use them again.

We want to hear about your ideas, too, so we're having a competition. What can you make with your garbage? Send us an email with a photo. We'll send a cool As good as new T-shirt to the ten readers with the best ideas and we'll print your photos in our next magazine.

3 Read again and write True or False.

1 The shoes used to be car tires. True

2 It's not possible for scientists to recycle car tires.

3 The bag used to be milk cartons.

4 It takes one large bottle to make five large T-shirts.

Give your garbage a new home

Recycling is a great idea, but before you throw your garbage into a recycling bin, stop and think. There are lots of other things you can do with your garbage.

- How about giving your old books, toys, or clothes to a charity? The charity will sell your old things to make money.
- Why not take old boxes, plastic bags, wrapping paper, greeting cards, and ribbons to a local school? Teachers will use them for art classes.
- What about taking old boxes and newspapers to pet shops? They will use them to make beds for the animals.
- Why not take old magazines to a local doctor's office? They will put them in the waiting room for patients to read.
- Some supermarkets recycle plastic bags, so you can return your bags to them.

Your garbage is useful to other people. Find a new home for your old things and help your town.

Suggestions and reasons

We use these phrases to make suggestions:
Why not ...? How about ...? What about ...?

When we make a suggestion, we give a reason for the suggestion.
Why not take old magazines to a local doctor's office? They will put the magazines in the waiting room for patients to read.

4 Match the suggestions and reasons.

1 How about using rain water to clean the house?	<input type="checkbox"/>	a You will save lots of water.
2 Why not visit the wildlife park?	<input type="checkbox"/>	b They will catch the sun's energy.
3 What about making book covers from old posters?	<input type="checkbox"/>	c They will look great and they will keep your books clean.
4 Why not put solar panels on the roof?	<input type="checkbox"/>	d You will see lots of amazing animals.

Trash Art

They say that one man's trash is another man's treasure. This is certainly true for HA Schult.

Schult is a German artist and he loves making art from trash. In 1969, he covered a street in Munich with trash to make a huge work of art. In 1983, he used old copies of the New York Times newspaper to create a paper river through part of the city. In the 1990s, Schult used old cans, computer parts, used plastic, and all kinds of other trash to make one thousand life-size sculptures of people. He called the sculptures Trash People.

Schult displayed his sculptures at the Amphitheatre of Xanten in Germany. The Trash People stood in rows, like an army of soldiers. The exhibition was very popular, so Schult decided to send the Trash People on a tour around the world.

Between 1996 and 2008, the Trash People visited many countries, including China, Egypt, the U.S.A., and the Antarctic. They stood in front of ancient buildings, and next to world landmarks.

In 2010, Schult used trash to create a whole hotel in Rome, Italy! It's called Save the Beach, and it has two storeys and five rooms. Schult wants the Trash People and Save the Beach to remind people that not all trash becomes art. He hopes people will create less trash and help protect the environment.

3 Read again and complete the sentences with the underlined words in the text.

- The Trash People are life-sized sculptures.
- HA Schult decided to _____ the Trash People in Germany first.
- People enjoyed the _____ of Schult's Trash People.

The San Diego Zoo tries to breed endangered species and prevent animals from becoming extinct. The most famous endangered animals at the zoo are the giant pandas. Today, three giant pandas live in the zoo's Giant Panda Research Station. The Research Station is an amazing enclosure with lots of trees, plants, and rocks.

Bai Yun is 24 years old. She came to the zoo in 1996. Bai Yun is interested in everything. Her name means "white cloud" in English.

Bai Yun has had six baby pandas, including Xiao Liwu, who also lives in the Giant Panda Research Station.

Xiao Liwu is the youngest panda at the San Diego Zoo. He is three years old. He is full of energy, and he is very independent.

In the wild, the main struggle to giant pandas is people. People are building in places that pandas live. - Ask students to look at the pictures. Ask *Where do you think the pandas are?* Encourage students to share their ideas.

2 Listen and read. 57

- Tell students they are going to listen to the text. Play the whole recording as students read.

- Ask comprehension questions, e.g. *What is the San Diego Zoo like? Which panda had six babies?*

Differentiation

Below level:

- In pairs, students make a three-column chart in their notebooks. At the top of each column, write one panda's name. Then they re-read the text and write details about each panda in the chart. Monitor and help as needed. If time permits, students can share their charts with the class. Encourage them to say one thing they learned.

At level:

- Tell students they are going to play a guessing game. You are going to say sentences describing the pandas in the San Diego Zoo, and they have to guess which one you are describing. Give students one minute to skim the text again. With books closed, write the names of the three pandas on the board: *Gao Gao, Bai Yun, and Xiao Liwu*. Say different sentences describing the pandas. *She is the youngest panda. (Xiao Liwu) She is 24 years old. (Bai Yun) He lived on a nature reserve in China when he was one year old. (Gao Gao)*, etc. Students call out the answers. You can play this as an open class activity or in teams. If you play in teams, award a point for each correct answer.

Above level:

- Play *Talk!* (see page 9). Ask children to talk about one of the pandas in the text or another animal they know about. Encourage students to give details, e.g. *age, location, favorite foods*, etc. Monitor and help as needed.

3 Read again and write True or False.

- Look at the example and explain that they have to write *True* or *False*.
- Students do the exercise individually.
- Go through the answers together.

1 Look at the text. Where do you think it is from?

2 Read.

Save the tiger

Tigers are large, beautiful animals.
They are wild cats, with orange and black stripes. Tigers live in forests. They eat meat and they hunt other animals for food.

Tigers are an endangered species.
100 years ago, there were 100,000 tigers in the world. Today, there are only about 3,000 tigers left. They live in India, China, Indonesia, Russia, and some other countries in Asia.

Sadly, there are many threats to the tiger population.
People hunt tigers for their beautiful fur. People also cut down trees in the forests, so the tigers have nowhere to live.

3 Read again and answer the questions.

- How many tigers are left in the world?
- Why are tigers endangered?

Topic sentences and paragraphs

Look at the highlighted sentences in the text. These are topic sentences. We use a topic sentence at the beginning of a paragraph. It tells us what the paragraph is going to be about.

1 Look at the website. Who do you think the text is about?

2 Listen and read.

A day in the life of a firefighter

Rob Elliot has worked as a firefighter for eight years and he loves his job. Rob's day starts at 9 a.m. "Every day is different," says Rob. "On some days, I drive the fire engine. On other days, I wear the breathing apparatus. I enjoy every part of my job."

Rob has rescued people from all kinds of situations. "We get called to road accidents, floods, train and plane crashes, or chemical spills," says Rob.

But firefighters do more than rescue people. They give first aid and they clean up and check sites after an accident or disaster. They often work together with the police and paramedics. They also train people in fire safety.

Today, there was a call. A house was on fire and there were two people trapped in an upstairs bedroom. The firefighters jumped into the fire engines and raced to the house. Rob and another firefighter, Jenny, ran upstairs while the rest of the team used hoses to put out the fire. Rob and Jenny found a mother and daughter in one of the bedrooms. They opened a window and helped the mother and her little girl to climb down a ladder. Soon the fire was out and everyone was safe. "And it's still only eleven o'clock!" said Rob.

3 Read again and answer the questions.

- Does Rob always drive the fire engine? No, he doesn't.
- Does Rob enjoy his job? _____
- Do firefighters give first aid? _____
- Were the people trapped downstairs? _____
- Did Rob and Jenny use hoses to put out the fire? _____

The firefighters rescued the family from the house and paramedics took Jake and his family to the hospital. Jake's parents and sister have already gone home and Jake will be out of the hospital later today.

Lesson Five

Reading

1 Look at the poster. Which foods should you eat most of?

2 Listen and read.

The healthy eating pyramid

Healthy eating is about feeling great and having more energy. If you choose the right foods, your healthy diet will be a tasty diet, too.

You can still enjoy your favorite sweet and salty foods, but too much sugar and salt is bad for your body. These foods should only be treats.

Dairy products like milk, cheese, and yogurt are great because they contain calcium and keep our teeth and bones healthy.

Tip: Choose low-fat dairy products.

Meat, fish, eggs, beans, and nuts are important, too. They keep our bodies healthy and they give us energy to work and play.

Tip: Avoid salted or sugary nuts.

Whole grains are an important part of every meal. If you eat lots of whole grains, you will have a healthy heart. Whole grains are in bread, cereal, pasta, and rice.

Tip: Dark bread and brown rice are great choices of whole grains.

Fruit and vegetables are the most important part of a healthy diet. They are low in calories but full of vitamins, fiber, and antioxidants.

Tip: Fruit and vegetables with complex carbs, such as those found in whole grains, are the best choices.

3 Read again and write the answers.

1 Is it important to eat fruit and vegetables? **Yes, it is.**

2 Is fruit full of calories? _____

3 Are whole grains good for your heart? _____

4 Is meat bad for you? _____

5 Is cheese good for your bones? _____

6 Can you still eat candy sometimes? _____

Pizza problems
If you're a terrible cook, you'll love this story! Last month, my mom bought me a recipe book. I decided to make pizza for dinner one evening.
I mixed flour, salt, and water in a bowl. I was listening to music on the radio. It was very loud, so I didn't hear my brother come into the kitchen. He shouted my name and scared me. I dropped the bowl. The flour and water went all over the table, the floor, and my pants.
Luckily, my family thought my cooking disaster was very funny. We went to a pizza restaurant for dinner. I haven't cooked again since then! If I cook again, I won't listen to music in the kitchen!
Posted by Tina at 3:33 p.m.

3 Read again and answer the questions.
1 What did Tina want to make?
2 Why didn't Tina hear her brother come into the kitchen?

A personal account: endings
We can end a personal account by writing:

- how people felt
Luckily, my family thought my cooking disaster was very funny.
- what happened in the end
We went to a pizza restaurant for dinner.
- the writer's comments about what happened and what they have learned
I haven't cooked again since then! If I cook again, I won't listen to music in the kitchen!

Topic: Food Webs

1 Look at the picture. What do you think the arrows mean?
2 Listen and read.

Food Journeys

Every living thing needs energy to move and grow. We get this energy from the food we eat. Different living things get their food in different ways.

Producers
Plants are called producers, because they produce their own food. They take energy from the sun and mix it with chemicals from the air and the water in soil to turn it into sugar and oxygen.

Consumers
Animals and humans are called consumers, because we can't make our own food. We need to consume (or eat) other things to get energy. Some consumers eat plants, and some consumers eat other animals. There are three groups of consumers:

- Herbivores – animals that only eat plants.
- Carnivores – animals that only eat other animals.
- Omnivores – animals that eat plants and other animals. Humans are omnivores.

Decomposers
Bacteria and fungi are called decomposers. When plants or animals die, bacteria and fungi eat them and make them part of the soil again. The soil gives energy to new plants.

Food webs show how each living thing gets food, and how different plants and animals are connected. For example, grasshoppers and sheep eat grass. Birds eat grasshoppers. Foxes eat birds and sometimes young sheep. Humans eat sheep. Bacteria eat everything in the food web when it dies.

3 Read again and complete the sentences with the underlined words in the text.

- Producers can make their own food.
- Consumers need to eat plants or animals to get energy.
- Herbivores don't eat other animals.
- Carnivores don't eat plants.
- Omnivores eat plants and animals.
- Fungi are types of decomposers.

4 **Think!** Talk to your partner.

- What's your favorite animal? Is it a carnivore, herbivore, or omnivore?
- What foods do you like to eat? Are these foods producers or consumers?
- What do you think might happen if something in the food web became endangered or extinct?

86 Core Science Food Webs

1 Look at the picture. What do you think the arrows mean?

Critical Thinking

- Focus attention on the food web. Ask students what they think the arrows mean. Each arrow means "eaten by". The arrows also show the flow of energy through a food web, e.g., when the fox eats the bird, the energy moves to the fox.

2 Listen and read. 79

- Play the recording for students to listen and follow the text in their Student Books. Elicit / Teach the meanings of any unknown words.
- Play the recording again. Ask comprehension questions, e.g. Where do producers get energy from? What are the three groups of consumers? What do omnivores eat?

3 Read again and complete the sentences with the underlined words in the text.

- Explain that students need to find information in the text to help them complete each sentence. Complete the first item as a class. Students complete the activity individually.

ANSWERS

- producers
- consumers
- herbivores
- carnivores
- omnivores
- decomposers

4 Think! Talk to your partner.

Critical Thinking

- Read out the questions and elicit suggestions from students around the class.

Collaboration

- Put students in pairs to discuss their answers.
- Have pairs report back to the class.

Differentiation

Below level:

- Go through the questions one at a time, checking that students understand the meaning of each question.
- Elicit one or two ideas and write them on the board.
- Divide the class into three groups. Assign one question to each group. Students talk together to decide on the best answer to their question. Invite students from each group to report their answer to the class.

At level:

- Students complete the activity.

Above level:

- Ask students to work in pairs to choose a dish and list all the ingredients that go into it. They should then write whether each ingredient is / comes from a producer or consumer, e.g. Bread (wheat) – producer / Tomatoes – producer / Cheese – comes from cows – cows are consumers.

Lesson Five

Reading

1 Look at the text. Where do you think it is from?
 2 Listen and read.  86

Just breathe

The movement of your blood through your heart and around your body is called **circulation**. The process of circulation is fast! It takes less than a minute to pump blood to every part of your body.

- When you breathe in, oxygen goes into your lungs.
- Blood from your lungs fills with oxygen and moves into the left side of your heart.
- The left side of your heart pumps the blood with oxygen in it out through tubes called **arteries**. Arteries carry blood away from your heart to your body.
- Your body takes the oxygen out of the blood and uses it to stay healthy and strong. We need oxygen for everything we do: moving, growing, speaking, and thinking. If we do not have oxygen, we cannot live.
- When your body uses the oxygen from your blood, it makes **carbon dioxide**. Your body doesn't need this carbon dioxide, so the blood takes it away. Other tubes, called **veins**, carry the blood with carbon dioxide in it back to your heart.
- The blood from your body goes into the right side of your heart.
- The right side of your heart pumps this blood into your lungs. Your lungs remove the carbon dioxide from the blood.
- When you breathe out, the carbon dioxide goes back into the air.

3 Read again and write the answers.

- Is circulation slow? No, it isn't.
- Does blood from your lungs go into the right side of your heart? _____
- Do arteries carry blood away from your heart? _____
- Do veins carry blood back to your heart? _____
- Does oxygen go into the air when you breathe out? _____

2 Listen and read. 🎧

The Heavenly Horse

One and a half thousand years ago, a powerful group of people named the Silla ruled Korea. The Silla had powerful armies to protect their royal families and their land. They built beautiful temples and statues and made wonderful jewelry and decorations.

When Silla kings died, people buried them in great tombs. There are many ancient Silla tombs in Korea, but the most famous tomb is the Cheomachong tomb in the Gyeongju valley. Only local people knew the tomb was there until 1973, when archeologists decided to study the area. Soon the rest of the world knew about this wonderful place.

The tomb is 47 meters wide and 12.7 meters high. After digging for several months, archeologists found golden jewelry, a sword, a lamp, and some shoes. They also found a gold screen and a gold belt, which shows that the tomb was for a king. Inside a treasure chest, there was a painting of a horse with wings on its feet. Because of this painting, people called the tomb the Heavenly Horse.

Today, the Heavenly Horse tomb is a very popular tourist attraction. Visitors can go inside the tomb and see where the king lay for hundreds of years. If you travel to Korea you should definitely take the chance to see this amazing place.

A visit to the Colosseum by Ben Sanders
Have you ever wondered what life was like in ancient Rome? A visit to the Colosseum is a wonderful way to find out something about life in Roman times.
I visited the Colosseum on a cold morning last February. I could smell fresh bread from the bakeries as I walked through the noisy streets. Suddenly, I saw the Colosseum in front of me.
Sadly, the Colosseum is in ruins now. But I imagined excited Romans sitting in the seats and watching a great show. I explored the rooms under the Colosseum where the Romans kept things for the shows. I felt scared, because the rooms were small and dark.
As I was leaving, I saw a man wearing a Roman costume. "Come back soon," he said. I hope I will visit the Colosseum again soon. It's an amazing place.

3 Read again and answer the questions.
1 What could Ben smell when he walked to the Colosseum? 2 Why did Ben feel scared?

Making writing more interesting

We can make a piece of writing more interesting by:

- asking a question
How you ever wondered what life was like in ancient Rome?
- using the senses (what we could hear / see / smell / taste / touch)
I could smell fresh bread from the bakeries as I walked through the noisy streets.
- using a variety of adjectives
But I imagined excited Romans sitting in the seats and watching a great show.
- describing people's thoughts and feelings
I felt scared, because the rooms were small and dark.
- using direct speech
"Come back soon," he said.

4 Match.

1 Do you ever wonder how people built ancient buildings? a using the senses
2 I could feel the sun on my face and the wind in my hair as we drove up the hill. b describing people's thoughts and feelings
3 The old stone walls were covered in beautiful paintings. c a question
4 I felt excited as I walked through the doors of the castle. d direct speech
5 "I hope you enjoyed your visit," she said to me. e a variety of adjectives

Alexander and the Terrible, Horrible, No Good, Very Bad Day

Alexander and the Terrible, Horrible, No Good, Very Bad Day is a great movie. It's a comedy and it's directed by Miguel Arteta. The movie is based on a children's book by Judith Viorst. The main character in the movie is an eleven-year-old boy called Alexander Cooper. Alexander is played by Ed Oubonadi. He's only a teenager, but he's already been in lots of movies.

In this movie Alexander has the worst day in his life. Alexander lives in the U.S.A. with his mom, dad, older brother, older sister, and baby brother. His terrible day starts when he gets gum stuck in his hair, and then lots more things go wrong, one after the other. Alexander tells his family about the horrible things that happened to him, but his family doesn't feel sorry for him at all. Alexander's family members are all very confident and cheerful, and they can't see the problem. Alexander starts to think that bad things only happen to him. He wishes that his family could understand how he feels. But then Alexander's wish comes true, and his brothers,

sister, mom, and dad all have terrible days, too. Now they know just how Alexander feels! The family faces accidents, disasters, and even some wild creatures, like a crocodile and a kangaroo! Luckily, the terrible day teaches the family to stick together and help each other. They all agree that they need to have a few bad days so that they can really enjoy their good days.

The actors in the movie are very funny, and they all give great performances. Steve Correll plays Alexander's dad and Jennifer Garner plays Alexander's mom. Miguel Arteta is a great director, and there are lots of great special effects in the movie, too. There's a scary car crash and lots of things breaking! The movie is funny and exciting. Don't miss the chance to watch *Alexander and the Terrible, Horrible, No Good, Very Bad Day*. It's a great movie for all the family.

3 Read again and circle.

2 Alexander gets gum stuck in his shoe / hair.

3 Alexander has two brothers / sisters.
4 Alexander's family isn't sorry / cheerful about his terrible day.

TIME FRAGMENTS

The Palermo Stone is part of a large stone tablet from Ancient Egypt. The tablet contained a list of the pharaohs of Egypt and told about important events in Egyptian history. The tablet is the oldest historical text from Ancient Egypt. It was made more than 5,000 years ago. Today, the Palermo Stone is in a museum in Palermo, Italy.

Greek pots are important because they tell us what life was like in ancient Greece. The ancient Greeks often decorated their pots with scenes from everyday life. Sometimes these scenes show what the pot was used for, and sometimes they show events that happened in Greek life or Greek mythology.

The San Bartolomé murals are inside a pyramid in Guatemala. They are the oldest Mayan murals in the world, and they were discovered in 2001. The murals were painted by excellent artists, and they tell the story of how the universe was created. They also tell us a lot about Mayan life.

The Bayeux Tapestry isn't really a tapestry. It's an embroidered cloth and it tells the story of the Battle of Hastings in 1066. The Battle of Hastings is the most famous battle in England's history, and the Bayeux Tapestry is the longest piece of embroidery in the world. It's about as long as three swimming pools!

3 Read again and complete the sentences with the underlined words in the text.

- The Palermo Stone is part of an important tablet.
- Some Greek pots show events from Greek mythology.
- The San Bartolomé murals are inside a pyramid.
- The San Bartolomé artists painted the story of how the universe was created.
- We can learn about an English battle from the Bayeux tapestry.
- The Bayeux Tapestry is really a very long piece of embroidery.

4 Think! Talk to your partner.

- Which object in the text do you think is the best for telling stories? Why?
- What ancient stories do you know about? Do you like ancient stories? Why (not)?
- How do you think people will learn about us in the future?

2 Project. Make a mural about an important event.

Creativity

- Explain that students are going to make a mural about an important event in recent history. Ask *What do you need to make this project?* Elicit *card* or *paper*, *paint* or *colored pens* or *pencils*, *scissors*, *glue*.
- Focus on the instructions. Ask a student to read out the instructions to the class.
- Divide the class into groups of three or four. Hand out a large sheet of card, sheets of paper, scissors, and glue to each group.
- The students decide on an event and find information on the Internet or in reference books. They then draw pictures showing scenes from the event (directly on the card, or on paper to stick onto the card) and write about each scene.

Differentiation

Below level:

- As a class, decide on an event and talk about the different key scenes.
- Divide the class into three or four groups to complete their murals. Help students to allocate the different scenes within their groups.

2 Read.

Famous people in the news by Tom Adams

Celebrities are always in our newspapers and magazines. They are not always happy when stories about them are reported in the news. But I believe that the public should know about famous people's lives.

First, celebrities want to be famous. It seems to me that celebrities should be pleased when their photo is printed in newspapers or magazines, because it means that people are reading about them.

Also, people spend a lot of money on tickets to watch concerts, movies, and sports events, so they want to know about the celebrities' lives and personalities.

On the other hand, reporters and photographers sometimes make life difficult for famous people. They wait outside celebrities' houses and they often follow them. In my opinion, this is a problem.

In conclusion, I think reporters should write about celebrities, but they shouldn't make life difficult for famous people. After all, celebrities are people, too.

3 Read again and answer the questions.

- Does the writer think that reporters should write about celebrities?
- What reasons does the writer give for his opinion?

Expressing opinions

We use these phrases to express our opinions:

I (don't) think that ...	In my opinion, ...
I (don't) believe that ...	It seems to me that ...

4 Look at the text in Exercise 2. Underline the phrases expressing the writer's opinion.
5 Read and circle.

- I don't opinion / believe celebrities should be angry when their pictures are printed in newspapers.
- It seems / believe to me that famous people have very good lives.
- In my opinion / think, famous actors earn more money than they deserve.
- I seems / think it is very easy to become famous these days.

The Trojan Horse

Hundreds of years ago, Prince Paris of Troy took a beautiful Greek woman called Helen back to Troy with him. A Greek army sailed to Troy to bring Helen home. For ten long years, the Greeks surrounded the city of Troy. But the city had high, strong walls and heavy gates. No enemy could get inside.

One day, a Greek leader called Odysseus had a clever idea for entering the city. The Greeks listened to his plan and started work immediately. They used large saws to cut down trees and make long pieces of wood. They used hammers and nails to join the wood together to make a huge wooden horse. They put the horse on a large wooden platform with wheels underneath, so that the horse could move along the ground. They made a door in the horse's stomach so that thirty soldiers could hide inside the horse. The rest of the Greeks sailed their ships to an island near the city of Troy and waited.

When the Trojans saw that the Greek camps and the Greek ships were gone, they were surprised but very happy. They came out of the city and the children ran down to the water to swim and play in the ocean for the first time in their lives. The Trojans believed that the Greeks were tired of the war and didn't want to fight any more. Then the Trojans saw the amazing wooden horse.

1 Look at the photos. What are the people doing? What do you think Earth Day is?
2 Listen and read. 

Earth Day

What is Earth Day?
Earth Day is an international event when people all over the world think about how we can protect our planet. Earth Day takes place on April 22nd every year.

How did Earth Day start?
In 1970, U.S. politician Gaylord Nelson decided that there should be a special day for people to think about how we can work together to take better care of our planet. The first Earth Day took place on April 22nd, 1970, in the United States. Twenty million people and thousands of local schools and communities took part. Because of the success of the first Earth Day, the government of the United States decided to make new laws to protect the environment. Earth Day soon became an annual event and an international celebration.

Why do we need Earth Day?
Earth Day is important because we all share the same planet. Sometimes, we forget that we are responsible for our planet and that we should protect it for ourselves and for other people. Earth Day is a day for everyone to think about the problems our planet faces, such as climate change, endangered species, deforestation, and pollution. It's a time for us to think about how we can stop these problems and make our world a cleaner, safer place for all the people and animals on Earth.

What do people do on Earth Day?
People celebrate Earth Day in many different ways. Some people hold rallies or demonstrations. They make signs with messages about protecting nature and they march in

Treasure Island

My name is Jim Hawkins. When I was a boy, my father had a small hotel in England, near the ocean. One day, an old sailor arrived at the hotel. He said his name was Billy Bones. He went to the beach every day and looked out at the ocean. Billy had a wooden box in his room. Nobody knew what was inside it.

After a few months, Billy Bones became very ill. When I visited Billy, he pointed at his wooden box. "There is treasure in that box," he said. "If you help me, I will share the treasure with you." But that night, Billy Bones died. I was very sad. I decided to open the wooden box. Inside, I found some papers wrapped in a cloth. I took the papers to Doctor Livesey's house. Doctor Livesey was having dinner with the Squire. They unwrapped the papers and looked at them carefully.

"This is a list of treasure and a map!" said the Squire. "The treasure is on an island. We must get a ship and go to find it." So the Squire found a ship. He also met a ship's cook called Long John Silver who only had one leg. Long John Silver told me wonderful stories about the ocean and about his adventures. I liked talking to him, but I didn't like his pet parrot. It was always shouting.

Soon we were ready to leave. I said goodbye to my parents and we sailed away to look for the treasure. One day, I was tired and hungry. I wanted to rest for a few minutes, but I soon fell asleep. When I woke up, I heard men talking. They didn't see me. One of the men was Long John Silver. "When we find the treasure and get it onto the ship, we'll steal the ship from Jim and his friends," he said. The other men agreed. "We'll leave Jim and his men on the island and we'll all be rich!" they said.

Suddenly, there was a shout. We were near Treasure Island. I found Doctor Livesey and the Squire and I told them about Long John Silver's terrible plan.

1 Look at the pictures. What can you see? Who do you think invented these things?
2 Listen and read.

How China changed the world

China has a rich and fascinating history. From ancient times, Chinese engineers and inventors have made amazing inventions and discoveries. The Ancient Chinese often invented or knew about things long before the rest of the world, but eventually their ideas reached other countries and changed the world. Many of the things that we use today originally came from Ancient China. These are some of China's most important inventions:

Paper
The Chinese invented paper in the 2nd century BC. That's over two thousand years ago! Three hundred years later, in 105 AD, the Chinese invented a way to manufacture paper, so they could make lots of paper to write on. At this time, people in the rest of the world were writing on clay or animal skins. The Chinese used their paper to make paper money and playing cards.

Printing
Hundreds of years before Gutenberg invented his printing press in Europe, the Chinese invented a printing press and printed newspapers and books. The first printed newspapers were sold in Beijing in 700 AD, and the first printed book with pictures was printed in China in 868 AD. In 1155 AD, the first printed map

was produced in China. Thanks to these inventions, books changed the world by improving education and making information available to everyone.

The Compass
When the Chinese invented the compass between the 2nd century BC and the 1st century AD, they used it to choose the best places to build their homes. The Ancient Chinese believed that their horses should face north, so they used the compass to find the correct direction. Later, the compass was used for travelling on land and sea. The compass made some of history's most famous journeys possible.

Silk
The Ancient Chinese were the first people to make silk. Silk thread is made by silkworms. The Chinese collected the thread and used it to make a soft, light material. Wealthy people in Europe wanted silk to make their clothes, so a lot of people bought silk from the Chinese. The route from Europe to China was called the Silk Road. For hundreds of years, the Chinese didn't tell anyone how to make silk. It was a wonderful secret.

The Kite
There are many stories about how the kite was invented. Some people believe that a Chinese farmer tied a string to his hat to stop it from blowing away, and his hat became the first kite. Other stories say that Chinese soldiers used kites to send
