**C Student B's questions**

1. Why does Jane want to work for this company?
2. Why does she like solar energy?
3. If she got the job, what would she do?
4. Does she try to protect the environment now? How?
5. What does she think her best trait is?
6. How would that help her if she got the job?
7. What does she think her worst trait is?
8. Does she think this trait can help her? How?

**Student A's answers***Sample answers:*

1. Because she wants to help the environment.
2. Because it doesn't cause pollution.
3. She would write articles to help people understand the good things about solar energy.
4. Yes, she does. She uses CFLs, buys local food, and takes public transportation.
5. She thinks her best trait is being curious.
6. Because she's curious, she would ask a lot of questions and learn her job quickly.
7. She thinks her worst trait is being indecisive.
8. Yes, because she goes to her co-workers for advice. That helps everybody get along well.

**D Student A's questions**

1. Why does Matt want to work for this company?
2. Why does he like hybrid cars?
3. If he got the job, what would he do?
4. Does he try to protect the environment now? How?
5. What does he think his best trait is?
6. How would that help him if he got the job?
7. What does he think his worst trait is?
8. Does he think this trait can help him? How?

**Student B's answers***Sample answers:*

1. Because he wants to help reduce pollution.
2. Because they don't cause pollution.
3. He would try to get more people to buy hybrids.
4. Yes, he does. He rides his bike to work and grows his own vegetables.
5. He thinks his best trait is being optimistic about the future.
6. Being optimistic would help him work hard to stop global warming.
7. He thinks his worst trait is being impatient.
8. Yes, he does. When he is impatient to find the answer to a problem, he asks people at work to help him. Together they find answers.
