12 Unit 2

#### READING

A Read the title and skim the blog posts. What are these people's jobs? Why do you think their jobs are hard to understand?

#### MY PARENTS DON'T UNDERSTAND MY JOB!

#### DANNY BANGKOK, THAILAND

Do you know what a social media manager is? Right, of course you do, but my mom doesn't. Every week, I try to explain my job to her. I work for a company that makes cars. My job is to tell the world how great our cars are. How do I do that? I get up early and write posts for social media. On weekdays, I go online around 7:00 a.m. and sometimes I work until 9:00 at night. The problem is . . . my mom doesn't use social media.

#### CARLA BUENOS AIRES, ARGENTINA

It's so funny! I explain my job to my dad, but he just looks very confused. I'm a fashion designer. I always get up early on weekdays because I love my job. I have an office, and most days I draw pictures of cool new clothes, like dresses, jeans, and T-shirts. I also go to stores to look at fabrics to use for my clothes. My dad thinks I'm crazy! He just goes to a store and buys stuff to wear. He doesn't know someone has to design it first.

#### NICO athens, greece

So, I'm a sociologist. I study people. Well, I study how people behave. I also study why we behave the way they do. My mom and dad don't understand why I do that. My mom says, "Nico, people are people! They just do normal things!" I don't agree. There are many reasons why people do the things they do, and love to learn about that.

#### LISA LOS ANGELES, UNITED STATES

I'm a software engineer, but my dad doesn't know what that means. I tell him that software is the technology inside his computer, his phone, and his tablet. I make apps for smartphones. One app helps people exercise more. It's very cool because it tracks everything you do during the day. You put your phone in your pocket, and the app does the rest. The app tracks your walk to school, your bike ride on the weekend, and more.

20 Unit 3

READING

#### A Skim the article. Why do you think people shop online?

In this week's blog, we look at some extraordinary things people can buy online.

#### A PIECE OF THE MOON: \$27.50

It's true. You can own a piece of land on the moon. An acre, or about 4,000 square meters, of moon costs \$27.50. That's a lot of space for your stuff. In fact, the price of each acre goes down when you buy more land. Imagine what you could do with all that space . . . if you could travel there! But don't worry, you get a certificate that says the land is yours.

#### SOMEONE TO STAND IN LINE FOR YOU: \$25 AN HOUR

No one likes to stand in line, right? Now you don't have to! For \$25 an hour, someone waits patiently in line to get the stuff you need. Imagine that! Some people pay for someone to stand in line for movie tickets or for a new video game that's on sale. Make a reservation online in just a few clicks.

#### SOME VERY EXPENSIVE SNEAKERS: \$20,000 AND UP

Do you ever think your shoes are boring? Well, our sneakers are just what you need. Just go to our online store, look for a pair of sneakers you like, and place a bid. Maybe you'll win! Some of the sneakers are from famous basketball players.

#### NO TIME FOR A REAL PET: \$12

Many people like dogs and cats, but they just don't have the time to take care of them. If that sounds like you, here's the answer to your problem: a digital pet rock. It's clean, it's quiet, and it doesn't need food. It comes in a box. We think it's just about the perfect pet. You plug it into your laptop, and it's always with you!

## do families spend a lot of time together?

We spend a lot of time together on the weekends. My husband and I always take our son, Oliver, and daughter, Samantha, out to do something fun. Some weeks we go for a long bike ride and get a lot of fresh air! We go to the beach in the summer, of course. In the evenings, we have a barbecue together. During the week, it's more difficult to spend time together because of work and school. - Jane Chambers

It's a little sad, but most of the time we spend as a family is watching TV. We don't talk much. My mom and dad both work, and they're often tired when they get home. My sister just plays games on her tablet all evening. It's kind of boring. Maybe we spend about an hour a day together. It's never more than that. - Billy Foster

I'm a stay-at-home dad, and I'm having a great time with my family! When the kids are in school, I do housework. When they come home, I help them with their homework. After that, we all have fun together. We play a lot of sports and read books. I love all the time I get with my two boys. - Nick Ramos

We're always really busy, but we make an effort to spend time together. My grandparents come over to our house twice a week for dinner. I think family is very important. I often help my mom or dad cook the meals. Sometimes we all go to the movies. I like that a lot. - Carla Costantini

#### & Marco Tianzi Mountains

I came to this awesome place three days ago. These are the Tianzi Mountains, in Hunan Province, China. The mountains cover 67 square kilometers (or over 16,000 acres), and they are named for a famous farmer who lived in the area. I took a cable car up to the mountains. The ride was about six minutes long. The views are breathtaking! The mountains look almost like they are man-made. Sadly, my trip is almost over and I have to go home. But I want to come back soon!

Guys, look at this! This is in the desert near Hurghada, Egypt. I was just there with my friend Carla. Desert Breath is a piece of land art made by three people in the nineties – an artist, an architect, and an engineer. It's made of sand, and it covers a large area of the Sahara Desert – 100,000 square meters (or about 25 acres). Every year, some of the art disappears. The wind moves the sand away. For now, it's so large that satellites in space take photos of it. How cool is that?

#### & Kelly Giant Salt Lake

I flew from La Paz to Uyuni to see this spectacular place. I took so many pictures. It's called Salar de Uyuni, and it's in beautiful Bolivia. It was part of a giant salt lake in prehistoric times. When I saw the lake, it looked like a giant mirror. I'll never forget it!

#### THE AGE OF SELFIES

#### THE BIRTH OF THE SELFIE

Most of us take selfies now and then. Presidents, rock stars, actors, and sports stars all take them. It's very easy to take selfies on a smartphone. But the selfie isn't really a new idea. Back in 1839, a man named Robert Cornelius took the very first selfie. Cornelius was a photographer from Philadelphia, in the U.S. He took the picture of himself by setting up his camera and then running to stand in front of it. On the back of the picture, Cornelius wrote: "The first light picture ever taken. 1839."

#### WORLD'S BEST SELFIE?

Astronaut Aki Hoshide is the third Japanese astronaut to walk in space. But that's not the only reason he's famous. Hoshide created an amazing image! The astronaut took this picture while he was at the International Space Station. The photo shows him, the sun, and deep space in the same shot. He named it "Orbiting Astronaut Self-Portrait."

#### THE PSYCHOLOGY OF SELFIES

Why do people want to take pictures of themselves? Psychologists say that it's a way of understanding who we are. It's also a way of controlling how other people see us. When we take selfies, we can choose the flattering ones the ones that make us look really good - and share them with our friends on social media or over text. Some people take their selfies very seriously. There are even apps people can use to make their faces look "perfect."

#### THE DAILY SELFIE

Several years ago, Poppy Dinsey started a fashion blog. She had a simple but great idea. Every day for a year she posted a selfie of herself wearing a different outfit. So one day, she's wearing jeans. Another day, she's wearing skinny pants and a baggy sweater. The next day, she's wearing a hip dress. People loved Poppy's blog. Many people started their own fashion blogs because they liked her so much.

A Look at the photos. Skim the blog posts. What did Jennifer Aniston do in her sleep? How did Mervyn Kincaid cross the Irish Sea?

# UNIQUE EXPERIENCES

#### How much is that pizza?!

Do you like pizza? Do you *really* like pizza? Do you like pizza enough to spend over \$100 on one? Some people do! And here's the reason why. Truffles are similar to mushrooms, but they grow underground. They're extremely expensive. They can cost hundreds of dollars each. Pizza usually only costs a few dollars, but some people have paid as much as \$178 to eat pizza with fresh white truffles on it. Celebrity TV chef Gordon Ramsay has won a place in the Guinness Book of Records for inventing this expensive dish.

#### Do you sleepwalk?

Did you know that some people walk in their sleep? Well, you probably do because it's a surprisingly common problem. In fact, almost a third of the U.S. population has sleepwalked at some point in their lives. The actress Jennifer Aniston is one of them. Jennifer has set off the burglar alarm in her own house by walking around while she was asleep.

Set sail in a bathtub!

Have you ever dreamed of going on a really big adventure? One man has crossed the Irish Sea . . . in a bathtub! Yes, you heard that right. Mervyn Kincaid has sailed from Ireland to Scotland in a bathtub with a small engine attached. Even better, Mervyn has raised a lot of money for charity. His friends and family have all made donations.

#### Oh no! I hit "send"!

Have you ever pushed "send" on a text message and then realized you've just sent a text to the wrong person? Hopefully not! But Burt Brown has. This 30-year-old software engineer has just sent 30 cute pictures of his baby to his boss instead of his mom! Luckily, his boss is a good guy and understood the mistake.

# **READING**

A Scan the article. In which country do people usually leave a 15-20% tip on food? In which country is tipping unnecessary?

#### WHAT'S A TIP?

The verb to tip means to give money, and the noun tip is the money that you give to someone. It's a slang word from Old English. Around the world, many people give tips to people who provide a service for them. It's a way of saying thank you. But did you know that tipping customs around the world vary a lot?

#### WHO AND WHERE TO TIP

In some countries, like the United States, it's common to give a tip in a lot of different places. Almost everybody gives tips to servers in restaurants and cafés. Servers rely on those tips to add to the low wages they get paid for their jobs. People also tip taxi drivers and hairstylists. If an airport worker or a hotel bellhop helps you with a heavy suitcase, you tip them as well. In Japan, though, it's a very different story. In Japan, tipping isn't part of the culture, so it rarely happens. In fact, a tip might be confusing to the server. And in France, a "service charge" is included on all restaurant checks, so in fact, you've already tipped your server.

Change

#### HOM WICH TO TIPS

The amount people tip in the United States varies between 15 and 20% on restaurant checks. So, for example, if a restaurant total is \$40, people give the server around \$6-8. That seems like a lot of money for some visitors who come from countries where tipping isn't customary. According to one news source, the average tip in a New York restaurant is 19.1% of the total, but in London it's 11.8%. That's a big difference.

#### WHO'S THE BEST TIPPER?

A millionaire named Benjamin Olewine probably wins the prize for giving the world's most generous tip. Mr. Olewine paid for his server's nursing school fees as a tip! The waitress, Melissa, was working in a restaurant to save money for school. One day, she served breakfast to Mr. Olewine. The check was \$3.45. The tip was more than \$20,000!

#### Lake Vostok, Antarctica

About four kilometers (2.5 miles) under a large area of ice in Antarctica, there's a lake named Lake Vostok. It covers 15,690 square kilometers (6,058 square miles) and is 800 meters (2,625 feet) deep in some places. Lake Vostok is prehistoric – millions of years old – but until 1956, no one even knew it existed. It's a fresh water lake, and it has been hidden from sunlight for 15 million years. What this means is that the water is some of the cleanest, purest water on Earth.

#### Cape Grim, Australia

We all know that air pollution is a problem all around the world, so where do you go if you want really clean air? Well, Cape Grim in Tasmania, Australia is probably the best idea. Cape Grim has some of the cleanest air on Earth. Cape Grim also has beautiful, clean water. Why is this? Wind! Special winds called "The Roaring Forties" cross the Southern Ocean, bringing with them wonderfully clean water and air. In fact, in Cape Grim, people are allowed to put rain water into bottles and sell it. That's how clean it is!

#### Singapore

The tiny island of Singapore has a population of about 5.7 million people. It also has very strict rules about the way its people behave. Singapore is one of the cleanest cities on the planet because of these rules. People are not allowed to chew gum unless it's from a doctor, and all used chewing gum has to go in a trash can. That means that you don't find gum on the sidewalks. In fact, no one drops trash in the street. There are big fines for people who don't respect the rules, but most people are happy to keep their city clean and healthy.

#### A Scan the article. Why did some people go to the wrong address?

Security cameras in a fancy hotel captured a video of a well-dressed woman, about 30 years old, texting on her phone. There's nothing unusual about that, is there? Well, yes, this time there is. The woman was so busy on her phone that she walked right into a pool of water in the hotel lobby . . . fully dressed! Nobody knows who the woman is or where the watery adventure happened, but almost half a million people have watched the video on the Internet!

A New Yorker was riding the subway home from work one evening. He was very excited by the video game he was playing on his smartphone. When he won the game, he threw his arms in the air in excitement . . . At that moment, the subway doors opened to let people on and off the train. The problem is that the man threw his phone right out of the subway car and on to the tracks below. Oops! No more video games for a while!

A lot of people are so busy looking at their smartphones that they often walk into lampposts and hurt themselves. The problem is so big that Brick Lane in London is now a "safe text" zone. Every lamppost in the street is covered in soft padding just in case somebody walks into it.

Most of us use map apps on our phones to get to the places we want to go. But sometimes, these apps get a little confused. A demolition company (a company that tears down buildings) used a map app to find a house. So far so good, right? Well, no. The map led the workers to the wrong house, a house one block away from the correct house in a town in Texas. The workers tore the house down. Imagine the owner's reaction when she arrived back home later that day!

- **B** Read the article. Which advice best summarizes the article?

An important invention

Vacations near the ocean

# A Goal Accomplished

Boyan Slat has one huge goal. It's a goal that could benefit people and animals all over the world. Amazingly, it looks like he's going to accomplish it.

When he was 16, Dutch engineering student Boyan Slat was on vacation in Greece, and he started to think about all the garbage that gets washed up on beaches. The oceans around the world are full of plastic – millions of tons of plastic. Unfortunately, plastic doesn't just disappear. It takes centuries to break down. Slat wanted to do something to change all that. So he made it a personal goal to clean up the garbage in the world's oceans.

Slat started with an idea for an extraordinary machine to "catch" the plastic floating in the water using the natural energy of the ocean. He left school in 2013 to begin work on his project, which he called The Ocean Cleanup. A year later, he was leading a team of 100 scientists and engineers working on the invention. Slat needed money for this, so

he started asking people to donate to his project online and raised over \$2 million!

Soon after, Slat was named a "Champion of the Earth" by the United Nations. It's the most important title the UN gives to people helping the environment. The Ocean Cleanup also won several awards for having one of the best inventions of 2015. But the dream goes on for Boyan Slat. He hopes that the oceans will be free of plastic in about twenty or thirty years.
