Teaching notes

The Oxford Primary Skills series is designed to be used alongside a coursebook to develop reading and writing skills, and uses a balance of familiar and new language in different contexts.

Each level of Reading and writing is made up of ten units that are designed to be used in order. The texts progress in length and the skills practised progress in difficulty through the book. The units follow a grammar and vocabulary syllabus designed to be consistent with what the children are learning in their language lessons.

Reading
There are a variety of reading text types through the course to expose children to different types of English in use. Children will be motivated by their ability to read and understand ‘real’ text types such as websites and magazine articles that have been graded to their level. Children develop the skills of reading and listening for gist and detail, both of which are essential for complete communicative competence.

Some of the text types they will encounter are, amongst others: stories, magazine and newspaper articles, posters, leaflets, websites, factfiles, reports.

Writing
In the Writing section of each unit, the children practise punctuation, syntax and text structuring, and are given the opportunity to write different types of text, often about themselves, closely following a model text that will support them in structuring their writing. Their writing confidence will develop as they find they have written, amongst others: emails, descriptions, interviews, biographies, diary entries, website profiles, stories.

More words
At the back of the book is an optional section of vocabulary extension exercises that can be used to augment the number of words the children learn in each unit from six to eleven. The extra words are consistent with the topic of the unit and can be used, by those children who complete the activities, in the Writing task at the end of each unit.

It is to be stressed that these words are optional and it is perfectly possible to complete the course without using this additional section.

Tour of a unit
Each unit is topic-based and the topics are consistent with areas the children will be covering in their English language coursebooks and in other subject areas. The units are structured to offer the children support in developing their reading and writing skills. Every unit follows the same structure:

Reading and Comprehension
pages 1 and 2 of each unit
The six new words are introduced in picture form at the top of the first page. Use the pictures to teach the words which will form the basis for the Vocabulary work in the unit and will also appear in the Reading text.

The Reading text follows the new words. There is also a recorded version of this text on the Teacher’s CD.

When you start to teach a new text, approach it in three stages: pre-reading, reading for gist, and reading for detail. Explain that children do not have to understand every word
to do this. By focusing on the language they do understand, it is possible to guess or use logic to work out the meaning of the rest.

**Pre-reading.** This stage is about looking for clues to help the children piece together the meaning of the text. This includes looking at the pictures and text style to guess what type of text it is and what it is likely to be about. Ask the children to give suggestions about what they think the text will say before they start to read.

**Reading for gist.** Play the recording twice while the children follow the text in their books. They do not need to be able to read every word independently, but be able to read carefully enough to understand the gist. Ask some simple comprehension questions to ensure they have understood the general points.

**Reading for detail.** This stage will take place as you go onto the Comprehension page. Go through the first comprehension activity with the class so that the children know what information to look for in the text. Give them time to read the text again to find the answers. Have a class feedback session. Then let the children answer the questions on their own or do the following exercise/s together as a class if you prefer.

**Vocabulary**
page 3 of each unit
The vocabulary exercises give the children the opportunity to practise the new words learnt earlier in the unit. The vocabulary items are practised in the context of simple, graded language structures and alongside other vocabulary items that they are likely to recognize from their coursebook or from the context of the reading text.

On the Vocabulary pages in this level, the children are introduced to the concept of word definition. This lays the basis for later development of the skills of dictionary use as they progress as language learners.

At the bottom of the third page of the unit, you will see directions to the More words section for that unit. For those wishing to further extend the children’s vocabulary, this is the stage in the unit where these new words should be taught and practised. This allows the children the option to use them in their writing task on the final page of the unit.

**Writing**
page 4 of each unit
The Writing page begins with a model text that the children should read. Apply the same approach as for the Reading text.

Look for clues in the picture and the style of the text for what type of text it might be and what they think they might be asked to write.

Read the text together as a class to see if they were right with their predictions.

Then move on to the exercise following the text. This focuses on a writing skill that will help them to complete the final writing task of the unit. Some examples of these are, amongst others:

- punctuation, linking expressions, giving advice, relative clauses, recognizing adjectives and adverbs.
- Do feedback as a class before they move on to the writing task.

The writing tasks are very well-supported with useful words and phrases given in the yellow boxes so the children are not pushed beyond their level of competence. They are based very closely on the model text above, and the children should be encouraged to refer back to the text you have read together to complete the final exercise of the unit in their notebooks.

Eating in China

Hi. I'm Lin, I'm eleven and I'm from China. Chinese food is really delicious. We eat a lot of rice, noodles, vegetables and meat. We fry or steam a lot of our food. It is very healthy.

In China, people don't usually eat with knives and forks. Instead we use chopsticks and we sometimes use spoons.

We usually eat from big serving dishes. We put them in the middle of the table, but we sometimes serve portions of rice in small bowls. In China, we don't think it's rude to reach across the table to take food from serving dishes.

We do think it is rude to take the last piece of food from a serving dish for yourself. We offer it to another person instead. That is very polite.

When your bowl is empty, someone gives you more food. When you are full, you put your hand over your bowl or leave some food in your bowl. We don't put our chopsticks on top of our bowls. We put them on the table next to us when we finish eating. We don't use napkins, but we usually clean our hands with hot towels at the end of the meal.

Do you like Chinese food? Is it very different from food in your country?

Mozart

Wolfgang Amadeus Mozart is probably the most famous composer in the world. He was born in Austria in 1756. He was very clever and he loved music from a very early age. His father, Leopold, was a musician. Leopold was Mozart's music teacher. Mozart learned to play the piano when he was only four years old. He wrote his first music when he was five. He played the violin, too. As a young boy, Mozart travelled around Europe with his father and his sisters. He played music for some very important people. He played in front of royal families in different European countries.

When Mozart was eight, he started to write music for the flute and the piano. After that he wrote music for a whole orchestra. He was a great composer, musician and conductor. He wrote lots of music and operas and he became very famous. One of his most famous operas is 'The Magic Flute'.

When Mozart grew up, a lot of people loved his music, but he didn't make a lot of money. He was often ill and it was difficult for him to work. He was married and he had two sons. The youngest son, Franz Xaver Wolfgang, was a musician like his father. Mozart died in Vienna when he was only thirty-five, but people all over the world still love his wonderful music.

Tom and Emma are in the park.

**Tom:** This is my new football kit. Let's play football in the park, Emma.

**Emma:** No thanks. I don’t like football.

**Tom:** Why not, Emma? I know you're a basketball fan. But you can like both of them. I think football is more exciting than basketball.

**Emma:** But I can't play football. It's too difficult for me.

**Tom:** No, it isn't. It's easy! There are goalposts at the end of the pitch. You just kick the ball and you try to score a goal.

**Emma:** It's not easy for me! Basketball is much easier than football. You throw the ball through the hoop. That's all. I'm good at throwing. I'm not very good at kicking.

**Tom:** OK. You can be the goalkeeper. The goalkeeper throws the ball.

**Emma:** OK then. Let's play football.

Tom and Emma go onto the pitch with their friends.

**Tom:** Throw the ball, Emma!

**Emma:** OK. Ready?

What do you think will be invented in the future? Do you have any ideas? Soon, there will be a Museum of Future Inventions near London. At the museum you will be able to see models of the machines, cars and robots of the future.

The museum will be very big. There will be modern escalators and beautiful glass lifts. Visitors will move through the museum on moving walkways. They will listen to audio guides to find out about the things in the museum. Some of the robots will talk to you. They will be able to talk in a lot of different languages.

There will be cinemas, laboratories, classrooms, a café and a gift shop in the museum. At the gift shop there will be fantastic things to buy for your friends and family. There will also be a Young Inventor Laboratory for children, with displays of new inventions. Children will make their own future inventions in the laboratory.

In the Technology room you will see displays of computers, TVs and games consoles of the future. There will be very small computers that you can wear like a watch. There will be games consoles and TVs with 3D images. There will be tiny phones you will wear in your ears.

Do you have an idea for a future invention? Why not send it to us? We will send you a Future Inventor T-shirt. We will send the best ideas to the museum and they will put them on the walls of the Young Inventor Laboratory for everyone to see.

Unit 4 Future inventions
Oasis of the Seas is the biggest passenger ship in the world. The lucky passengers have got lots of activities to choose from. The ship has got sixteen decks. Each deck has got different areas or zones for passengers to visit.

The enormous shopping zone is called The Royal Promenade. There are lots of different shops and places to eat here. There is a shopping mall, lots of different restaurants and also some cafés. There are lots of different types of food to choose from – British, Italian, Chinese, Indian and others.

This is Central Park. It is the first ever living park at sea. It’s amazing! This part of the ship hasn’t got a roof. It’s got lots of real trees and plants and it’s a great place to relax.

There are lots of ways to keep fit on board. You can swim in four pools and ten whirlpools in the Pool Zone. In the Sports Zone, you can play basketball, climb rock walls or play mini-golf. Passengers can visit a gym and have some exercise classes, too. They can also have dance lessons or skate on an ice rink on the ship.

The Youth Zone is a great place for young children and teenagers. They can learn about science or art, or they can just relax and have lots of fun. The Entertainment Place is the zone where passengers can go in the evening. It’s got two theatres and two cinemas. The bars and restaurants have got live music most nights.

March of the Penguins

In 2003, two French cameramen went to Antarctica to film emperor penguins for a year. Their fantastic film is called *March of the Penguins*.

Emperor penguins are amazing birds. They go on a very long and difficult journey every year. Hundreds of penguins get together and walk more than one hundred kilometres across the ice. They walk until they find a safe place for the mothers to lay eggs.

After they lay their eggs, the mothers give them to the fathers to look after. Then they walk back to the sea to find food for their new chicks. The fathers stay with the eggs. They balance the eggs carefully on their feet, because it is too cold on the ice. The fathers wait for sixty-four days for the eggs to hatch. They stand close together to keep warm in the snow and icy wind.

The mothers come back with food after two months. They feed the chicks while the fathers walk to the sea and back to find food for themselves. The parents make several journeys to find food until the chicks are about four months old. After that, the parents leave the chicks to look after themselves and return to the sea.

*March of the Penguins* is a very famous film. Lots of people all over the world went to watch it at the cinema. It’s a documentary, but it’s a wonderful story, too.

Elephants

I once saw a documentary on TV about elephants. It was very interesting. I learned that female elephants live in families, but male elephants leave the family. The males are unfriendly, they live on their own. When a family gets very big, some of the young females make a new group. They all care for the baby elephants. Elephants are very unusual animals because they can use their noses to listen. They put their noses, or trunks, on the ground to hear sounds from a long way away. I saw this in the documentary too. They also use their trunks to make noises to communicate with other elephants.

What do you know about jungles? Have you ever been in the jungle? Jungles are very beautiful places but they can be dangerous as well. You should be well prepared when you go to the jungle. Remember these important tips in case you get lost. They can help you and others in your group survive.

1. Find a hill  Climb a hill so that you can see over the top of the trees. When you’ve found a hill, look to see if there is a river. You can follow the river out of the jungle to safety.

2. Make a safe camp  Find a dry place, but don’t camp very near trees. It isn’t safe to camp near trees because trees and branches can sometimes fall.

3. Keep insects away  Wear strong insect repellent to keep dangerous insects away. Always look in your shoes before you put them on. Some insects like to hide in shoes and they will bite or sting you.

4. Drink lots of clean water  It’s hot in the jungle, so it’s important to drink enough water. Have you run out of water? Boil some water from a river to make it clean and safe to drink.

5. Try to think happy thoughts  It’s very important to stay cheerful. Think about how you will feel when you are safe with your family again. Try not to worry too much.

Have you got a garden? Do you help your parents or grandparents in the garden? So why not grow your own vegetables? We should all eat lots of vegetables to be healthy and growing vegetables is a lot of fun.

You should always plant vegetables in a sunny place and in good soil. You shouldn't plant vegetables outside when the weather is cold, because they won't grow.

What is your favourite vegetable? What vegetables does your family like to eat? Choose the vegetables you want to grow. Tomatoes, onions, corn and beans are easy to grow and they all taste really great. For tomatoes, you can plant seeds or small plants. For onions, you can plant bulbs. Plant lots of different ones – then you can see which you and your family like best! Some of them will grow better than others in your garden. You should draw a picture of your vegetable garden so you can remember where you planted your different vegetables. Then you will know what they are when they start to grow.

You should rake and water the soil and dig some small holes. Then plant your seeds or vegetable plants in the holes. You should water your vegetable plants every day. The best time to water them is in the morning. Ask a friend or someone in your family to water them when you can't do it.

You don't need a big garden to grow vegetables. You could also grow them in big pots. And when your vegetables are ready, you can pick them, wash them, cook them and eat them! So, why not start your vegetable garden today?

How to grow a bulb in a bottle

The best time to grow bulbs is in the spring. We usually plant bulbs in the garden or in a pot, but you can plant a bulb in a bottle.

First, you have to fill a bottle with water and put the bulb on top of the bottle.

Next, you should cover the bottle with a paper bag. You have to put it in a dark cupboard so the bulb can start to grow. Then, you should move it to a sunny place, because flowers need sunshine. You should put more water in the bottle every few days. You have to do this carefully, because you shouldn’t move the bulb much.

A bulb in a bottle is a great way to grow pretty flowers.

7 Match the sentence halves about growing sunflowers.

These newspaper articles tell the stories of three very brave young people from different parts of the world and why they are heroes.

**A hero and a friend**
Haden Stusak is from Atlanta in the USA. One day, he was playing in his grandma’s swimming pool with his best friend, Josiah. Haden was practising diving when he saw Josiah at the bottom of the pool. He was drowning. The adults did not see him. “I was the only person who saw him,” said Haden. Haden, who is six years old, quickly dived into the pool. He dragged five-year-old Josiah out of the water. A few minutes later Josiah was breathing again.

Everyone called Haden a hero. “I’m not a hero,” said Haden. “I’m just a good friend.”

**Earthquake hero**
Nine-year-old Lin Hao from China was having a Maths lesson with thirty of his classmates when there was a huge earthquake. The school building started to fall down. Lin and his classmates were trapped inside.

Lin was able to escape, but his friends were still in the building. Lin went back into the building three times to rescue them. “It was my job to look after my classmates”, he said.

**Good neighbours**
Kiah Kurtzer, who is from Australia, was looking out of her bedroom window one night when she saw that her neighbour’s bin was on fire. Fourteen-year-old Kiah first called the fire brigade, then she ran outside to start to put the fire out. She used water from the garden hose to put out the fire. Her neighbour came to help her. When the fire brigade arrived, the fire was already out.

“I was scared,” said Kiah, “but I think it’s important to help your neighbours.”

Grandpa’s new bike

Anna and Jack were staying at their grandpa’s house for the weekend. They were looking at some old photos when they found a photo of a teenage boy with a fantastic new bike. “Who’s that boy, Grandpa?” asked Anna. Grandpa looked at the photo and laughed.

“That’s me over fifty years ago,” he said. “I really loved that bike. It’s in my shed, but it’s old and broken now.”

Grandpa went shopping. While he was out Jack had an idea. “Grandpa hasn’t got a bike. Let’s mend his old bike for him!” he said.

Jack and Anna ran to Grandpa’s shed and looked around. “Look!” said Anna and pointed to an old bike.

“It’s a great bike,” Jack said. “But look – one of the wheels has fallen off.”

Anna found some tools in a drawer and they mended the wheel. They cleaned and polished the bike so it looked new again. They worked very quickly because they did not have much time. Then they heard a voice outside. Grandpa was back from the shops.

“Anna! Jack! Where are you?”

“It’s Grandpa!” said Anna.

Anna and Jack went outside and showed Grandpa the bike. He was amazed and very happy.

“That’s my old bike,” he said. “But it looks new and shiny.”

“Yes. We mended it,” said Jack. “We put the wheel back on, and polished it for you.”

Grandpa was very pleased and excited.

“Let’s ride our bikes together this afternoon,” he said.

Anna and Jack were very happy. They all rode their bikes to the park and had a wonderful picnic in the sunshine.

Oxford Primary Skills is a six-level supplementary series to develop reading and writing skills in the primary classroom. Each unit is very clearly structured, and includes vocabulary work as well as step-by-step reading and writing tasks.

- A broad range of text types, with a particular focus on real-world topics
- Thorough, systematic development of reading sub-skills
- Graded writing tasks, with a clear outcome
- More words section extends the vocabulary areas in the units

The series is accompanied by Audio CDs with recordings of the reading passages, and a website with notes and guidance for teachers.
